Virtual Educational Therapy Marion E. Marshall, 2022-06-20 Virtual Educational Therapy presents a board certified educational therapist's year long case study of clinical supports and advocacy for a student with learning disabilities who is attending school remotely during the COVID 19 pandemic. With online and blended learning now the norm in K 12 education, educational therapists need new models of intervention, treatment, and relationship building for their child age clients. This book offers detailed single case research focused on a middle school student who is learning virtually while challenged with ADHD as well as visual and verbal memory issues but who is nonetheless found ineligible for special education services. Across eight chapters, author and renowned educational therapist Marion E. Marshall describes the neuropsychological principles, research based techniques, personal interactions, clinical approaches, and advocacy efforts that led to a vulnerable student's significant gains in academic skills and outcomes.

Scientific Mythologies James A. Herrick, 2008-01-01 What does science have to do with science fiction? What does science fiction have to do with scientists? What does religion have to do with science and science fiction? In the spiritual vacuum of our post Christian West, new mythologies continually arise. The sources of much religious speculation, however, may be surprising. Author James Herrick directs our attention to a wide range of scientists, filmmakers, science fiction writers, and religious philosophers and discovers there the role that science and science fiction have played in such mythmaking. From scientists such as Francis Bacon, Francis Crick, Carl Sagan, and Freeman Dyson to filmmakers such as George Lucas and Steven Spielberg to science fiction writers such as Olaf Stapledon, Sir Arthur C. Clarke, Robert Heinlein, and Isaac Asimov, Herrick finds a curious collusion of science with science fiction for promoting and justifying alternative spiritualities. The rise of these new mythologies, he argues, is no longer a curiosity at the edge of Western culture. This alchemy is catalyzing a religious vision of new gods, a new humanity, and alien races with superior intelligence and secret knowledge. This new mythology overshadows the realms of politics, science, and religion. Should we follow such visions? Does science endorse these mythologies? Are we being offered a spirituality superior to the Judeo Christian tradition? This book will help you decide.

Not a Choice, Not a Job JANICE G. RAYMOND, 2013-07-15 A generation ago, most people did not know how ubiquitous and grave human trafficking was. Now, many people agree that the \$35.7 billion business is an appalling violation of human rights. But when confronted with prostitution, many people experience an odd disconnect because prostitution is shrouded in myths, among them the claims that prostitution is inevitable and prostitution is a job or service like any other. In *Not a Choice, Not a Job*, Janice Raymond challenges both the myths and their perpetrators. Raymond demonstrates that prostitution is not sex but sexual exploitation and that legalizing and decriminalizing the system of prostitution, as opposed to the prostituted women, promotes sex trafficking, expands the sex industry, and invites organized crime. Specifically, Raymond exposes how legalized prostitution in the Netherlands, Germany, Australia, and Nevada worsens crime and endangers women. In contrast, she reveals when governments work to prevent the

demand for prostitution by prosecuting pimps brothels and prostitution users as in Norway Sweden and Iceland trafficking does not increase women are better protected and fewer men buy sex Raymond expands the boundaries of scholarship in women s studies making this book indispensable to human rights advocates around the world Soviet Literature ,1985

Recharting the Thirties Patrick J. Quinn,1996 The aim of *Recharting the Thirties* is to revitalize the awareness of the reading public with regard to eighteen writers whose books have been largely ignored by publishers and scholars since their major works first appeared in the thirties The selection is not based on a political agenda but encompasses a wide and divergent range of philosophies clearly the contrasts between Empson and Upward or between Powell and Slater indicated the wide ranging vision of the period Women writers of the period have largely been marginalized and the writings of Sackville West and Burdekin for example not only present distinct feminine voices of the period but also illuminate how much good literature has been forgotten 2019-03-01 1979 40 **Fire and Snow** Marc

DiPaolo,2018-08-01 A broad examination of climate fantasy and science fiction from *The Lord of the Rings* and the Narnia series to *The Handmaid s Tale* and *Game of Thrones* Fellow Inklings J R R Tolkien and C S Lewis may have belonged to different branches of Christianity but they both made use of a faith based environmentalist ethic to counter the mid twentieth century s triple threats of fascism utilitarianism and industrial capitalism In *Fire and Snow* Marc DiPaolo explores how the apocalyptic fantasy tropes and Christian environmental ethics of the Middle earth and Narnia sagas have been adapted by a variety of recent writers and filmmakers of climate fiction a growing literary and cinematic genre that grapples with the real world concerns of climate change endless wars and fascism as well as the role religion plays in easing or escalating these apocalyptic level crises Among the many other well known climate fiction narratives examined in these pages are *Game of Thrones* *The Hunger Games* *The Handmaid s Tale* *Mad Max* and *Doctor Who* Although the authors of these works stake out

ideological territory that differs from Tolkien's and Lewis's DiPaolo argues that they nevertheless mirror their predecessors' ecological concerns. The Christians, Jews, atheists, and agnostics who penned these works agree that we all need to put aside our cultural differences and transcend our personal socioeconomic circumstances to work together to save the environment. Taken together, these works of climate fiction model various ways in which a deep ecological solidarity might be achieved across a broad ideological and cultural spectrum. This book is remarkably diverse in its literary, cinematic, journalistic, and graphics media sources, and the writing is equally authoritative in all these domains. DiPaolo's prose moves deftly from a work of fiction to its film avatar to the political and societal realities they address and back again into other cultural manifestations and then into and out of the deep theory of climate fiction, literary scholarship, ecofeminism, religious tradition, and authorial biographies. It contributes considerably to all of these fields and is indispensable for climate and environmental literature classes. It's also a must-have for general readers of the genre. Jonathan Evans, coauthor of *Ents, Elves, and Eriador: The Environmental Vision of J. R. R. Tolkien*. I like it. No, I love it. This book is both broad and deep, and yet it remains both very readable and constantly interesting. It's the sort of book that can only be written by someone who is a good reader of both books and culture. As I was reading it, I thought this is like being at a party and meeting someone brilliant and fun and finding that I'm enjoying that person's company so much that I don't notice the time flying by. It's not often that a scholarly book does that to me. David O'Hara, Augustana University.

Kirkus Reviews, 1984. Adult books are categorized by genre: i.e. fiction, mystery, science fiction, nonfiction. Along with bibliographic information, the expected date of publication and the names of literary agents for individual titles are provided. Starred reviews serve several functions. In the adult section, they mark potential bestsellers, major promotions, book club selections, and just very good books. In the children's section, they denote books of very high quality. The unsigned reviews manage to be discerning and sometimes quite critical.
