The background of the cover features a complex, abstract design. It consists of numerous thin, overlapping lines in shades of blue, green, yellow, and brown, which create a sense of movement and depth. These lines are set against a dark, almost black, background. In the upper right quadrant, there is a large, dark, textured shape that resembles a stylized, abstract face or a complex geometric form. The overall effect is one of dynamic energy and modernity.

## **Human Resource Management Gary Dessler 18th Edition:**

**Human Resource Management** Gary Dessler, 2024 Human Resource Management 17th edition provides students in human resource management courses and practicing managers with a full and practical introduction to the latest human resource management concepts and techniques in a highly readable and understandable form. As this new edition goes to press, I feel even more strongly than I did when I wrote the first edition that all managers, not just HR managers, need a strong foundation in HR personnel management concepts and techniques to do their jobs effectively. You will therefore find an emphasis here on practical material you need to perform your day-to-day management responsibilities even if you never spend a day as a human resource manager. To ensure a smooth transition for adopters from the 16th to this 17th edition, this edition's 18 chapter table of contents and the outline of all but Chapter 1 are basically as they were in the 16th edition. Therefore, in terms of teaching, the topic flow is about the same as the 16th edition. However, embedded in each chapter's paragraphs are dozens of new topics, practical examples, and research insights, all accompanied by hundreds of new references. I particularly examined every word and line in this edition, making dozens and dozens of fine-tuning improvements which, while possibly invisible to the casual reader, further improve the book's already high readability.

*Manual de recursos humanos 3ª ed.* Daniel Patricio Jiménez,2016-01-25 La

presente obra resume la experiencia acumulada de numerosos autores en el mundo empresarial y académico sintetizando las principales prácticas utilizadas por las Direcciones de Recursos Humanos. El eje de su contenido se desarrolla bajo la consideración de la empresa como sistema flexible indagando y desarrollando los principales factores endógenos y exógenos que interaccionan en la misma. Bajo un lenguaje asequible pero respetando los principios básicos se busca despertar el interés del lector tanto en aquel que vaya a iniciarse en este rea de conocimiento como en los que en sus diferentes responsabilidades consideran a la persona un activo activo de la empresa y precisan de una guía de referencia. No obstante lo dicho el presente manual no ignora los puntos críticos de la materia indagando en los mismos y dando al lector posibles soluciones mediante aportaciones basadas en la experiencia operativa de las organizaciones. Su enfoque presenta una importante novedad ya que conjuga el dogmatismo necesario con los modelos y métodos que sirven de práctica a las organizaciones. El contenido comprende tanto el análisis y desarrollo de las personas en sus distintas vertientes como aspectos organizacionales y de estructura así como el tratamiento jurídico laboral en aquellas reas consideradas críticas para el sistema. Este último aspecto resulta novedoso en este tipo de textos pero no por ello carente de fundamento si se quiere obtener una visión real de la gestión de recursos humanos y por tanto hacer de la misma una auténtica palanca de cambio en las organizaciones. Se trata de un manual básico que desde una perspectiva global da al lector una visión práctica integrada y multidisciplinar de los recursos humanos en la empresa aportándole las herramientas necesarias para entender una disciplina cuyas distintas vertientes no son a veces fácilmente conciliables. En su desarrollo los diferentes capítulos se han adaptado a los programas universitarios sobre la materia especialmente en los grados de marketing y administración de empresas por lo que su lectura representa igualmente una visión académica y docente. Índice: Introducción a los recursos humanos. Planificación y requerimientos del puesto de trabajo. DPT VPT Competencias organizacionales. El proceso de selección. Contrato de trabajo y representación social. Política retributiva. Gestión del desempeño y coaching. La formación en la empresa.
