

A high-angle, top-down view of a massive crowd of people. The majority of the individuals are wearing teal-colored t-shirts, while a smaller portion are wearing white t-shirts. Many of the people in white shirts have a dark, curved stripe across their chest. The crowd is densely packed and appears to be in motion, with many individuals raising their arms. The word "HUMAN" is superimposed in large, white, sans-serif capital letters across the center of the image, spanning from the upper left to the upper right. The background is a complex, colorful mosaic of heads, shoulders, and clothing, creating a sense of a large-scale event or festival.

Planetary Cinema Tiago Luca,2025-10-01 The story is now familiar In the late 1960s humanity finally saw photographic evidence of the Earth in space for the first time According to this narrative the impact of such images in the consolidation of a planetary consciousness is yet to be matched This book tells a different story It argues that this narrative has failed to account for the vertiginous global imagination underpinning the media and film culture of the late nineteenth century and beyond Panoramas giant globes world exhibitions photography and stereography all promoted and hinged on the idea of a world made whole and newly visible When it emerged cinema did not simply contribute to this effervescent globalism so much as become its most significant and enduring manifestation *Planetary Cinema* proposes that an exploration of that media culture can help us understand contemporary planetary imaginaries in times of environmental collapse Engaging with a variety of media genres and texts the book sits at the intersection of film media history and theory philosophy and it claims that we need this combined approach and expansive textual focus in order to understand the way we see the world

Critical Humanism Ken Plummer,2021-09-01 We live in a mutilated world and our humanity seems irrevocably damaged Many critics suggest we have reached the end of humanity In this challenging book Ken Plummer suggests that such claims may be premature instead what we need is a new transformative understanding of humanity *Critical Humanism* critically reflects upon and reimagines humanism for the twenty first century What is now required is a fresh wide ranging imaginary of an open worldly plural and caring humanity It needs to take a critical stance towards older often divisive ideas of what it means to be human while reconnecting to a wider understanding of the rich diversity of life in the pluriverse In an age of post and transhumanist turns Plummer provides a personal political and passionate call for thinkers researchers and activists to not turn their backs on humanism We need instead to create a vital new political imaginary of being human in a connected planet We simply cannot afford to be anti human or posthuman Restoring our belief in humanity has never been more important for edging towards a better world for all
