Haldane Haldane, 1980 The Philosophy of Humanism Richard Burdon Haldane Haldane (Viscount), 1922 The Routledge Dictionary of Literary Terms Peter Childs, Roger Fowler, 2006-07-13 A twenty first century version of Roger Fowler s 1973 Dictionary of Modern Critical Terms this latest edition of The Routledge Dictionary of Literary Terms is the most up to date guide to critical and theoretical concepts available to students of literature at all levels With over forty newly commissioned entries this essential reference book includes an exhaustive range of entries covering such topics as genre form cultural theory and literary technique new definitions of contemporary critical issues such as Cybercriticism and Globalization complete coverage of traditional and radical approaches to the study and production of literature thorough accounts of critical terminology and analyses of key academic debates full cross referencing throughout and suggestions for further reading Covering both long established terminology as well as the specialist vocabulary of modern theoretical schools The Routledge Dictionary of Literary Terms is an indispensable guide to the principal terms and concepts encountered in debates over literary studies in the twenty first century *Nietzsche and Transhumanism* Stefan Lorenz Sorgner, Yunus Tuncel, 2017-05-11 This essay collection deals with the question of whether Nietzsche can be seen as a precursor of transhumanism or not Debates on the topic have existed for some years particularly

in the Journal of Evolution and Technology and The Agonist This book combines existing papers from these journals with new material to highlight some of the important issues surrounding this argument The collection addresses a variety of issues to show whether or not there is a close connection between transhumanist concerns for progress and technology and Nietzsche's ideas

**Differences, Similarities and Meanings** Nicolae-Sorin Drăgan, 2021-10-25 In a world of global communication where each one's life depends increasingly on signs language and communication understanding how we relate and opening ourselves to otherness to differences in all their forms and aspects is becoming more and more relevant Today we often understand the differences in terms of adversity or opposition and forget the value of the similarities Semiotic approaches can provide a critical point of view and a more general reflection that can redefine some aspects of the discussion about the nature of these semiotic categories differences and similarities The dichotomy differences similarities is fundamental to understanding the meaning making mechanisms in language De Saussure 1966 Deleuze 1995 as well as in other sign systems Ponzio 1995 Sebeok Danesi 2000 Meaning always appears in the play of differences Derrida 1978 and similarities Therefore the phenomena of similarities and differences must be considered complementary Marcus 2011 This book addresses and offers new perspectives for analyzing and understanding sensitive topics in the world of global communication humanities education responsive understanding of otherness digital culture and new media power

**The Literary Guide and Rationalist Review**, 1914 The Unitarian Register, 1926 *Feminist Readings of Early Modern Culture* Valerie Traub, M. Lindsay Kaplan, Dymphna Callaghan, 1996-10-10 How did the events of the early modern period affect the way gender and the self were represented This collection of essays attempts to respond to this question by analysing a wide spectrum of cultural concerns humanism technology science law anatomy literacy domesticity colonialism erotic practices and the theatre in order to delineate the history of subjectivity and its relationship with the postmodern fragmented subject The scope of this analysis expands the terrain explored by feminist theory while its feminist focus reveals that the subject is always gendered although the terms in which gender is conceived and represented change across history *Feminist Readings of Early Modern Culture* not only explores the representation of gendered subjects but in its commitment to balancing the productive tensions of methodological diversity also speaks to contemporary challenges facing feminism

A Cyclopaedia of Education Paul Monroe, 1918 *Race and Racism in Continental Philosophy* Robert Bernasconi, 2003-06-18 The 15 original essays in *Race and Racism in Continental Philosophy* explore the resources that continental philosophy brings to debates about contemporary race theory and investigate the racism of some of Europe's most important thinkers Attention is devoted to the influence of the work of W E B Du Bois Jean Paul Sartre Richard Wright and Frantz Fanon Questions about race in European philosophy especially in the work of Nietzsche Heidegger L vi Strauss and Arendt are also considered This volume provides an indispensable critical introduction to new perspectives on thinking about race and racism

**Heidegger and French Philosophy** Tom Rockmore, 2002-09-11 Martin Heidegger's impact on contemporary thought is important and

controversial However in France the influence of this German philosopher is such that contemporary French thought cannot be properly understood without reference to Heidegger and his extraordinary influence Tom Rockmore examines the reception of Heidegger's thought in France He argues that in the period after the Second World War due to the peculiar nature of the humanist French Philosophical tradition Heidegger became the master thinker of French philosophy Perhaps most importantly he contends that this reception first as philosophical anthropology and later as postmetaphysical humanism is systematically mistaken *Posthumanism and Educational Research* Nathan Snaza, John Weaver, 2014-09-25 Focusing on the interdependence between human animal and machine posthumanism redefines the meaning of the human being previously assumed in knowledge production This movement challenges some of the most foundational concepts in educational theory and has implications within educational research curriculum design and pedagogical interactions In this volume a group of international contributors use posthumanist theory to present new modes of institutional collaboration and pedagogical practice They position posthumanism as a comprehensive theoretical project with connections to philosophy animal studies environmentalism feminism biology queer theory and cognition Researchers and scholars in curriculum studies and philosophy of education will benefit from the new research agendas presented by posthumanism *Antigone, Interrupted* Bonnie Honig, 2013-05-02 Sophocles Antigone is a touchstone in democratic feminist and legal theory and possibly the most commented upon play in the history of philosophy and political theory Bonnie Honig's rereading of it therefore involves intervening in a host of literatures and unsettling many of their governing assumptions Exploring the power of Antigone in a variety of political cultural and theoretical settings Honig identifies the Antigone effect which moves those who enlist Antigone for their politics from activism into lamentation She argues that Antigone's own lamentations can be seen not just as signs of dissidence but rather as markers of a rival world view with its own sovereignty and vitality Honig argues that the play does not offer simply a model for resistance politics or equal dignity in death but a more positive politics of counter sovereignty and solidarity which emphasizes equality in life *Postmodern Moments in Modern Economics* David F. Ruccio, Jack Amariglio, 2016-06-28 Of all the areas of contemporary thought economics seems the most resistant to the destabilizing effects of postmodernism Yet David Ruccio and Jack Amariglio argue that one can detect within the diverse schools of thought that comprise the discipline of economics moments that defy the modernist ideas to which many economists and methodologists remain wedded This is the first book to document the existence and to explore the implications of the postmodern moments in modern economics Ruccio and Amariglio begin with a powerful argument for the general relevance of postmodernism to contemporary economic thought They then conduct a series of case studies in six key areas of economics From the idea of the multiple self and notions of uncertainty and information through market anomalies and competing concepts of value to analytical distinctions based on gender and academic standing economics is revealed as defying the modernist frame of a singular science The authors conclude by showing how economic theory would change if the

postmodern elements were allowed to flourish A work of daring analysis sure to be vigorously debated Postmodern Moments in Modern Economics is both accessible and relevant to all readers concerned about the modernist straightjacket that has been imposed on the way economics is thought about and practiced in the world today
