*iHealth* Phillip Belton Sparling, Kerry J. Redican, 2024 *iHealth* was developed to help students navigate the changing sea of medical research and recommendations to help you reach a higher level of health literacy and personal well being By presenting only the most essential topics less time is spent memorizing and more time discussing and evaluating Focusing on critical thinking and communication skills provides carryover value for making smart health decisions long into the future

Ebook: The Science of Psychology: An Appreciative View King, 2016-09-16 Ebook *The Science of Psychology An Appreciative View* IHEALTH PHILLIP. SPARLING, 2016 *Resources in Education*, 1994 **Acupuncture in Neurological Conditions** Val Hopwood, Clare Donnellan, 2010-07-23 Written by two leading experts in the field *Acupuncture in Neurological Conditions* aims to improve patient care by combining Western and Traditional Chinese Medicine TCM concepts of treatment The language of TCM is uniquely combined with that of evidence based clinical reasoning to provide an approach relevant to both acupuncture and physiotherapy clinical practice All major types of neurological conditions encountered in clinical practice are examined Chinese medical patterns relevant to the application of acupuncture are described as well as key patterns of dysfunction based on a Western medical perspective The place of acupuncture within the overall management of different neurological conditions is also discussed Clinical reasoning options from both TCM and Western medical perspectives are provided and illustrated by real cases from clinical practice forming a sound platform for true integrated medicine Fully evidence based Provides clinical reasoning options from TCM and Western medical perspectives Illustrates clinical reasoning with real cases from clinical practice Provides detailed examination of all major types of neurological conditions encountered in clinical practice *iHealth* Phillip Belton Sparling, Kerry J. Redican, 2010-01-02 Featuring 13 chapters of essential personal health content in a brief handbook format and accompanied by 66 online assignable health articles *Personal Health A Concise Guide* offers a truly innovative approach to teaching the personal health course *Personal Health A Concise Guide* was designed to highlight visual appeal brevity portability and function while focusing on the essential topics in health that are most fundamental to overall wellness The text covers the core principles and common language of personal health and distills content down into small manageable portions The focus on core content gives instructors more time for exploring special topics or issues during class sessions supported by 66 articles assignable via Connect *Personal Health Together* the concise text and Connect give instructors ample opportunities to elicit and promote greater student engagement **Evidence-Based Programming for Older Adults** Marcia G. Ory, Matthew Lee Smith, 2015-06-17 There is increased world wide concern about the impact of multiple chronic conditions especially among the rapidly aging population Simultaneously over the past decade there has been an emergence of state wide and national initiatives to reduce the burden of chronic conditions that draw upon the translation of evidence based programs EPB into community practice Yet little has been written about the national and international implementation

dissemination and sustainability of such programs This Research Topic features articles about EBPs for older adults including a range of articles that focus on the infrastructure needed to widely disseminate EBP as well as individual participant impacts on physical mental and social aspects of health and well being Using a pragmatic research perspective this Research Topic will advance knowledge that aims to enhance practice inform policy and build systems of support and delivery in regard to the reach effectiveness adoption implementation and maintenance of evidence based interventions for older adults The focus is on knowledge transfer rather than knowledge generation but with a dual emphasis on the dissemination and sustainability of EBP that have been tested and shown effective as well as the adaptation of practice based interventions into evidence based programs This Research Topic draws upon grand scale efforts to deliver these programs and include both U S as well as international examples Commentaries discuss processes in the development and measurement of EBP and reflect perspectives from program developers and major national and regional funders of EBP as well as professionals and practitioners in the field The full length articles focus on four major programmatic areas 1 chronic disease self management programs 2 fall prevention programs 3 general wellness and physical activity programs and 4 mental health programs Additionally articles are included to discuss cross cutting issues related to building partnerships and the research infrastructure for the implementation evaluation and dissemination of evidence based programming The intent of this Research Topic is to enhance practice inform policy and build systems of support and delivery for EBP It is written for a diverse audience and contains practical implications and recommendations for introducing delivering and sustaining EBP in a multitude of settings
