Parness, 2001 Civil Procedure for Federal and State Courts covers all the major topics found in the standard Civil Procedure coursebook but supplements that coverage with areas not explored in other texts areas of great importance to attorneys in the actual practice of law Thus it has materials on court structure judicial selection and disqualification specialized courts and administrative adjudication the Federal Arbitration Act liens and other nonparty interests preservation of evidence ex parte contacts unreasonable searches informal discovery settlement agreements and enforcement of judgments The book presents a variety of materials illuminating the similarities and differences between federal and state court practices e g materials on court structure judicial selection case assignments pleadings compelled joinder compelled discovery or disclosure jury trial rights appellate review and issue preclusion Professor Parness experience has shown that the contrast tends to prompt lively class discussion of appropriate policies To bring key concepts into focus there are over 100 review problems The problems allow you to choose where more significant class time is spent adaptable from year to year depending on student interests current events and the like The Metropolitan Frontier and American Politics Daniel Elazar, 2020-03-10 American civilization has been shaped by four decisive forces the frontier migration sectionalism and federalism The frontier has offered abundance to those who would could take advantage of its opportunities stimulated technological innovation and been the source of continuous change in social structure and economic organization migration has been responsible for relocating cultures from the Old world to the New various sections of geographic territories have adjusted to the overall American culture without losing their individual distinctiveness and federalism has shaped the United States political and social organization The Metropolitan Frontier and American Politics was begun in the late 1950s under the auspices of the University of Illinois Institute of Government and Public Affairs as a study of the eight lesser metropolitan areas in Illinois What started out as a design for community maps of each area with the intent to outline their particular political systems led to a major study of metropolitan cities of the prairie the heartland area between the Great Lakes and the Continental Divide with an examination of the processes that have shaped American politics The distinctive features of the geographic areas that Elazar discovered can best be understood as reflections of the differences in cultural backgrounds of their respective settlers Proper understanding

of these communities therefore requires an examination of their place in the federal system the impact of frontier and section upon them and a study of the cultures that inform them as civil communities The volume is consequently divided into three parts Cities Frontiers and Sections Streams of Migration and Political Culture and Cities States and Nation each of which explores Elazar s concerns in discovering the interrelationship between the cities of the frontier and American politics A prequel to *The Closing of the Metropolitan Frontier* *The Metropolitan Frontier and American Politics* will be of great interest to students of politics American history and ethnography
