Project Description/Summary	Objectives (What/Why/How)	Key Deliverables/Outputs
The project aims to develop a new software application that will streamline the workflow of the marketing department. The application will be designed to track and analyze customer data, generate reports, and manage marketing campaigns. The project is expected to be completed within a budget of \$50,000 and a timeline of 12 weeks.	The primary objective of the project is to improve the efficiency of the marketing team's workflow. This will be achieved by automating manual tasks and providing a centralized platform for all marketing activities. The secondary objective is to enhance the team's ability to track and analyze customer data, which will enable them to make data-driven decisions and optimize their marketing efforts.	The key deliverables of the project are: - A fully functional software application that meets the requirements of the marketing team. - A set of comprehensive documentation, including user manuals, technical specifications, and training materials. - A successful implementation and deployment of the application within the specified timeline and budget.
