Operational Safety for

Aviation Managers John Frearson, 2024-11-28 Despite the vast amount of work building the foundations of safe operations aviation accidents still happen and prior to many accidents and other safety related events there was unexpressed or ignored disquiet as the last minute approached the last minute being that time when there is no longer time for discussion or analysis only safety first action This book aims at the assurance of better outcomes from these time critical situations whose genesis lies in the time period immediately preceding the last minute This assurance of better outcomes can best be assured by enabling operational managers to adopt new paradigms in the development of SOPs building the right culture and implementation of training programs relevant to good decision making required as the last minute approaches This book examines the development of the foundations for aviation safety the things that give foundational support for safety to pilots in particular but over which line pilots may have little knowledge or day to day control It provides a history of time critical safety related events providing the foundation for the understanding of the reasons why pilot inactivity indifference fixation and incapacitation can so pervade the lead up to the last minute as to leave the safe continuation of the flight resting on prompt remedial action The role of doubt how it is expressed and how it is heard is another central thread Finally the book addresses the role of flight data analysis as a valuable management tool Written for aviation managers line flight crews and those in similar operational roles in aviation related operations this book and its informal discussion style should appeal and communicate across national age experience and language boundaries to create a safer operational environment *AIR CRASH INVESTIGATIONS, FLYING COFFIN? The Near Crash of Olympic Airlines Flight OA202* Pete Collins, editor, 2012-07-01 The Lockheed 1011 registered A6 BSM operated by Star Jet and chartered by Olympic Airlines arrived on 4 July 2005 at Terminal 1 at Paris Charles de Gaulle airport Departure was delayed because the forward hold door could not be closed A mechanic tried to close the door manually with a hammer and a chuck Some passengers worried about the apparent state of the cabin and the noise asked to disembark and this led to a mass movement The airplane took finally off at 16h17 Shortly after departure the crew noticed problems with engine number 3 The captain requested the SEVERE DAMAGE procedure and returned to the airport The French Bureau d'Enquêtes et d'Analyses pour la Sécurité de l'Aviation Civile BEA investigated the incident BEA found out that the aircraft suffered from many problems such as leaking fuel malfunctioning safety features and lacking maintenance The flight crew was not properly licensed the captain was too old to fly in Europe The Lockheed Tristar was a flying coffin **Ernsting's Aviation and Space Medicine** David P.
