Emotional Maturity Scale Questionnaire:

Applied and community psychology Surya Kumar Srivastava, 2005 INFLUENCE OF TYPE OF SCHOOL, HOME ENVIRONMENT, GRADE AND GENDER ON EMOTIONAL MATURITY OF ADOLESCENTS. Dr. Kondaparthi Yashoda, 2017-09-07 Adolescence comes from the Latin word meaning to grow to maturity. Adolescence is a very important period in one's life as one goes through many changes. Physical as well as mental changes have short term and long term effects. Adolescence is a time of physical, social, and emotional growth and change. Adolescence is the developmental stage between childhood and adulthood; it is a critical period. It is a time of profound changes and occasionally turmoil. Considerable biological change occurs as adolescents attain sexual and physical maturity. At the same time, these physiological changes are revealed by important social, emotional, and cognitive changes that occur as adolescents strive for independence and move toward adulthood. The period at which maturation of the sexual organs occurs begins at about age 11 or 12 for girls and 13 or 14 for boys.

INFLUENCE OF EMOTIONAL INTELLIGENCE AND SPIRITUAL INTELLIGENCE ON TEACHING COMPETENCY PRANJAL NAGAR, 2017-10-31 Society is shaped by the system of education prevailing in the country. Changes in a society are the outcomes of education provided to its citizens. In UNESCO report 1996 Learning: The Treasure within, popularly known as Delors report, four pillars of education have been identified as the basic framework for global curriculum. Delors 1996 report states Education throughout life is based on four pillars: Learning to know, Learning to do, Learning to live together, and Learning to be. Indian culture provides another meaning to these pillars by putting Learning to know as Gyanyog, Learning to do as Karmayog, Learning to live together as Sahyog, and Learning to be as Atmasakshatkar, i.e. self realization which is the ultimate goal of human life.

Measures of Personality and Social Psychological Constructs Gregory J. Boyle, Donald H. Saklofske, Gerald Matthews, 2014-09-04 Measures of Personality and Social Psychological Constructs assists researchers and practitioners by identifying and reviewing the best scales measures for a variety of constructs. Each chapter discusses test validity, reliability, and utility. Authors have focused on the most often used and cited scales measures with a particular emphasis on those published in recent years. Each scale is identified and described; the sample on which it was developed is summarized, and reliability and validity data are presented followed by presentation of the scale in full or in part where such permission has been obtained. Measures fall into five broad groups. The emotional disposition section reviews measures of general affective tendencies and/or cognitive dispositions closely linked to emotion. These measures include hope and optimism, anger and hostility, life satisfaction, self-esteem, confidence, and affect dimensions. Emotion regulation scales go beyond general dispositions to measure factors that may

contribute to understanding and managing emotions These measures include alexithymia empathy resiliency coping sensation seeking and ability and trait emotional intelligence The interpersonal styles section introduces some traditional social psychological themes in the context of personality assessment These measures include adult attachment concerns with public image and social evaluation and forgiveness The vices and virtues section reflects adherence to moral standards as an individual characteristic shaped by sociocultural influences and personality These measures include values and moral personality religiosity dark personalities Machiavellianism narcissism and subclinical psychopathy and perfectionism The sociocultural interaction and conflict section addresses relationships between different groups and associated attitudes These measures include cross cultural values personality and beliefs intergroup contact stereotyping and prejudice attitudes towards sexual orientation and personality across cultures Encompasses 25 different areas of psychology research Each scale has validity reliability info on test bias etc Multiple scales discussed for each construct Discussion of which scales are appropriate in which circumstances and to what populations Examples of scales included *The International Journal of Indian Psychology, Volume 3, Issue 4, No. 60* IJIP.In,2016-08-15 This gives me an immense pleasure to announce that RED SHINE Publication Inc is coming out with its third volume of peer reviewed international journal named as The International Journal of Indian Psychology IJIP Journal of Studies is a humble effort to come out with an affordable option of a low cost publication journal and high quality of publication services at no profit no loss basis with the objective of helping young genius scholars and seasoned academicians to show their psychological research works to the world at large and also to fulfill their academic aspirations **The International Journal of Indian Psychology, Volume 2, Issue 2, No. 2** IJIP.In,2015-02-25 The International Journal of Indian Psychology ISSN 2348 5396 is an academic journal that examines the intersection of psychology home sciences and education IJIP is published quarterly and is available in electronic versions Our expedited review process allows for a thorough analysis by expert peer reviewers within a time line that is much more favorable than many other academic publications *Personality Tests and Assessments (Psychology Revivals)* Philip E. Vernon,2014-01-27 Originally published in 1953 this book provided the first comprehensive account of methods of personality assessment by a British author It starts with a short survey of personality theory pointing out the difficulties in any method of testing or assessment Next it describes the weaknesses of the common interview method Throughout the emphasis is on methods which are usable in educational or vocational guidance and selection not on methods which are mainly of scientific interest Thereafter it takes up each main type of technique tests based on physique or psychological measures on expressive movement such as gestures and handwriting tests of behaviour including War Office Selection Board house party methods ratings and rating scales questionnaires and so called projective techniques The evidence for or against each test or method is surveyed and numerous references provided for relevant literature Illustrative excerpts are given of many of the more promising tests and some pictorial illustrations British work in this field at the time is covered completely

and an attempt is made to provide a fair summary of the main contributions of American and other psychologists of the day
