materials are assessed through the lens of critical discourse analysis to explore the relationship between law social policy and social theory as they effect child protection While the book utilises primarily Irish sources this multidisciplinary approach ensures the argument has international applicability The book will be a valuable resource for all those with an interest in the development of child protection law

The Crimes of Wildlife Trafficking Ragnhild Aslaug Sollund,2019-01-22 This book examines trade and trafficking in endangered animal species and how the trade increasingly puts large numbers of nonhuman species at risk Focusing on illegal trafficking the book also discusses the harmful aspects of the trade and trafficking which is taking place in concordance with laws and regulations Drawing on the findings of empirical research from Norway and Colombia the study discusses how this global transnational trend is addressed and features of the trade and the ways in which it is controlled in the two case study locations It also explores the motives driving the trade and the consequences in terms of animal abuse and environmental harm The book discusses whether internationally agreed measures such as international conventions actually help prevent the trade Possible ways to address the harms of wildlife trade are considered including a total ban The work draws on a green criminology and eco feminist theoretical framework to provide a broad perspective on concepts such as harm animal rights species justice and speciesism

Deaths After Police Contact David Baker,2016-10-18 This book investigates death after police contact in England and Wales in the twenty first century It examines how regulatory bodies construct accountability in such cases Cases of death after police contact have the potential to cause deep unease in society They highlight the unique role of the police in being legitimately able to use force whilst at the same time being expected to preserve life People who are from Black or Minority Ethnic backgrounds or have mental health issues or are dependent on substances are disproportionately more likely to die in these cases and this emphasises the sensitive nature of many of these deaths to society Deaths after Police Contact examines police legitimacy and the legitimacy of police regulators in these cases The book argues that accountability is produced by a relatively arbitrary system of regulation that investigates such deaths as individual cases rather than attempting to learn lessons from annual trends and patterns that might prevent future deaths It will be of great interest to scholars and upper level students of policing and criminal justice

Handbook on Risk and Need Assessment Faye Taxman,2016-11-10 The Handbook on Risk and Need Assessment Theory and Practice covers risk assessments for individuals being considered for parole or probation Evidence based approaches to such decisions help take the emotion and politics out of community corrections As the United States begins to back away from ineffective expensive policies of mass incarceration this handbook will provide the resources needed to help ensure both public safety and the effective rehabilitation of offenders The ASC Division on Corrections Sentencing Handbook Series will publish volumes on topics ranging from violence risk assessment to specialty courts for drug users veterans or the mentally ill Each thematic volume focuses on a single topical issue that intersects with corrections and sentencing research
