of Europeans visiting India not merely for trade but also in search of her fabled ancient wisdom The European rediscovery of India s cultural heritage led to the emergence of Orientalist scholarship and a belief that India was the original home of the arts and sciences In India the great patron of Indie studies was the Governor General Warren Hastings He gathered around himself a select group that included Charles Wilkins Nathaniel Halhed and William Jones the most famous of the Orientalists But the growing political ascendancy of the British in India dampened the early exuberance for Indie studies As conquerors the British began to feel the need to justify their conquests and exalt their own race and religion Several other forces were at work to turn the tide against India The Industrial Revolution in England had created the need to convert India into a market for machine made British goods Meanwhile the Evangelicals pressed for the Christianization and Anglicization of India which they felt would lead to permanent British rule and also change Indian lifestyle to the advantage of British manufacturers The Evangelicals allied with the Utilitarians to launch a tirade against Indian culture and force the retreat of the Orientalists This volume covers the period from A D 1700 to 1850 A significant number of travellers visited India during this century and a half The accounts available to us are primarily those written in English A considerable amount of the work in French and the rich accounts of the early Danish missionaries on the Coromandel Coast for instance have yet to be translated into English

**Movie Mutations** Jonathan Rosenbaum, Adrian Martin, 2019-07-25 The idea of cinephilia is a crucial one for students of the cinema but it is often associated with a bygone arthouse era At the beginning of the twenty first century corporatism public relations and bottom line accounting seem to govern mainstream film making Formula driven Hollywood blockbusters dominate the world marketplace In times like these can the love of cinema still flourish In fact contemporary cinema is stunningly varied and rich From Taiwan and Iran to Brazil and the Baltic states it is flourishing and constantly mutating Directors like Abbas Kiarostami Hou Hsiao hsien and Tsai Ming liang are making extraordinary films that are the equal of the great classics previously unrecognised works from the past are being discovered and new definitions and boundaries of genres are being formulated Even when this work is not widely distributed it is seen at film festivals on every continent and available on DVD and it is being discussed in a proliferating number of print and web publications Those who follow and share such work as contributors from around the world demonstrate in this book are forming new kinds of critical communities that enable significant exchanges between cultures at a time when other forces seem bent on keeping them mutually isolated In contrast to any talk of the death of cinema Movie Mutations pronounces the art form alive well and still developing in new and unforeseen directions In weaving together transnational discussions and debates Movie Mutations shows why the idea of cinephilia is just as relevant today as it ever was
