Barren Women Sara Verskin, 2020-04-06 Barren Women is the first scholarly book to explore the ramifications of being infertile in the medieval Arab Islamic world. Through an examination of legal texts, medical treatises, and works of religious preaching, Sara Verskin illuminates how attitudes toward mixed gender interactions, legal theories pertaining to marriage, divorce, and inheritance, and scientific theories of reproduction contoured the intellectual and social landscape infertile women had to navigate. In so doing, she highlights underappreciated vulnerabilities and opportunities for women's autonomy within the system of Islamic family law and explores the diverse marketplace of medical ideas in the medieval world and the perceived connection between women's health practices and religious heterodoxy. Featuring copious translations of primary sources and minimal theoretical jargon, Barren Women provides a multidimensional perspective on the experience of infertility while also enhancing our understanding of institutions and modes of thought which played significant roles in shaping women's lives more broadly. This monograph has been awarded the annual BRAIS De Gruyter Prize in the Study of Islam and the Muslim World. **The Complete Infidel's Guide to ISIS** Robert Spencer, 2015-08-24 ISIS rocketed onto the world stage seemingly out of nowhere, beheading American hostages, bulldozing international borders, routing the American-trained Iraqi army, and carving out a new state that rules eight million people and a territory larger than the United Kingdom. But who are they? Where did ISIS come from, and how did they rise to power in so little time? What is driving them, and how can they be stopped? New York Times bestselling author Robert Spencer reveals the blood-drenched history and inner workings of the Islamic State, its military conquests, how it is financing its expansion, and the ideology that is driving its success. As Spencer reveals, the Islamic State has taken the first steps on the path to becoming a serious world power, steps that Osama bin Laden and al-Qaeda dreamed of but were afraid to take. The Complete Infidel's Guide to ISIS is your one-stop, easy reference for all you need to know about ISIS and how infidels can stop its reign of terror. **Women and Slavery in Nineteenth-century Colonial Cuba** Sarah L. Franklin, 2012 Scholars have long recognized the importance of gender and hierarchy in the slave societies of the New World, yet gendered analysis of Cuba has lagged behind study of other regions. Cuban elites recognized that creating and maintaining the Cuban slave society required a rigid social hierarchy based on race, gender, and legal status. Given the dramatic changes that came to Cuba in the wake of the Haitian Revolution and the growth of the enslaved population, the maintenance of order required a patriarchy that placed both women and slaves among the lower ranks. Based on a variety of archival and printed primary sources, this book examines how patriarchy functioned outside the confines of the family unit by

scrutinizing the foundation on which nineteenth century Cuban patriarchy rested This book investigates how patriarchy operated in the lives of the women of Cuba from elite women to slaves Through chapters on motherhood marriage education public charity and the sale of slaves insight is gained into the role of patriarchy both as a guiding ideology and lived history in the Caribbean s longest lasting slave society Publisher s description **A Guide to the Babylonian and Assyrian**

[The Ashgate Research Companion to Modern Imperial Histories](#) John Marriott, 2016-03-23 Written by leading scholars this collection provides a comprehensive and authoritative overview of modern empires Spanning the era of modern imperial history from the early sixteenth century to the present it challenges

both the rather insular focuses on specific experiences and gives due attention to imperial formations outside the West including the Russian Japanese Mughal Ottoman and Chinese The companion is divided into three broad sections Part I Times surveys the three main eras of modern imperialism The first was that dominated by the settlement impulse with migrants many voluntarily and many more by force making new lives in the colonies This impulse gave way most especially in the nineteenth century to a period of busy and rapid expansion which was less likely to promote new settlement and in which colonists more frequently saw their sojourn in colonial lands as temporary and related to the business mostly of governance and trade Lastly in the twentieth century in particular empires began to fail and to fall Part II Spaces studies the principal imperial formations of the modern world Each chapter charts the experience of a specific empire while at the same time placing it within the complex patterns of wider imperial constellations The individual chapters thus survey the broad dynamics of change within the empires themselves and their relationships with other imperial formations and reflect critically on the ways in which these topics have been approached in the literature In Part III Themes scholars think critically about some of the key features of imperial expansion and decline These chapters are brief and many are provocative They reflect the current state of the field and suggest new lines of inquiry which may follow from more comparative perspectives on empire The broad range of themes captures the vitality and diversity of contemporary scholarship on questions of empire and colonialism encompassing political economic and cultural processes central to the formation and maintenance of empires as well as institutions ideologies and social categories that shaped the lives both of those implementing and those experiencing the force of empire In these pages the reader will find the slave and the criminal the merchant and the maid the scientist and the artist alongside the structures which sustained their lives and their livelihoods Overall the companion emphasises the diversity of imperial experience and process Comprehensive in its scope it draws attention to the particularities of individual empires rather than over generalising as if all empires at all times and in all places behaved in a similar manner It is this contingent and historical specificity that enables us to explore in expansive ways precisely what constituted the modern empire
