Civilization and its Discontent - Sigmund Freud

Introduction

- Has to do with his Instincts and Drive theory
 - o *Beyond The Pleasure Principle* (pamphlet) – new way of looking at theory
- Till then his theory was based on Love, Eros, sexuality and Self Preservation
 - o Love and hunger make the world go round – eros and self preservation
 - Self preservation is self love – called narcissism
 - Love can flow outwards to others or can be brought in again
- Another set of drives – Death Drive/ Instinct – the opposite of Eros
 - o Eros brings people together, death instinct tear everything apart – force of destruction where all living matter decomposed into organic parts
 - o These forces in us = basic drives – are everywhere in the universe
- *The Future and the Illusion* (pamphlet)
 - o Based on religion
 - o Civilization (everything that distinguishes us from our animal cousins – believe in evolution and Darwin) was supposed to bring us happiness and advances, but causes us unhappiness – **can't act on impulses**

Chapter 1

- Talks about great individuals (philosophers, poets, religious figures, etc.)
- On author – Roland Roman (friend of Freud)
 - o Being one with the external world as a whole
- Freud – religion stems from our helplessness which is experienced in 2 different stages in our life
 - o 1. Infants – terrified of noises, visuals, unfamiliar things – look to our parents to subside anxieties
 - o 2. Adults – continue to experience these anxieties through
 - i. Nature outside of us (earthquakes, epidemics...)
 - ii. Nature inside us (bodies become weaker)
 - iii. Fellow human beings (not always treated nicely)
 - o Adults create god to take place of parents and take away anxieties
- Freud raises question of whether it is being correctly interpreted and whether it ought to be regarded as the *fons et origo* of the whole need for religion
 - o Where does this common feeling come from
- Towards the outside, ego maintains clear lines of demarcation (I know what's me and I know what's not)
 - o There is one state, an unusual state, in which it does not do this – being in love
 - o Declaring love - "I" and "you" = one, prepared to behave as if it were fact
- There are cases in which parts of a persons own body, perceptions, thoughts and feelings seem alien to him and as not belonging to his ego
 - o Other cases in which he ascribes to the external world things that clearly originate in his own ego

Changing the Scientific Study of Religion: Beyond

Freud? Jacob A. v. van Belzen,2009-06-18 The psychoanalytic approach to religion has changed radically during the course of the twentieth century In both clinical and theoretical work in psychoanalysis developments have taken place that frequently are not noted by persons who assume that all that can be said has been said by Freud The study of religious phenomena persons events and traditions has always been a substantial part of applied psychoanalysis and here also major developments have taken place It is no exaggeration to state that the scientific study of religion has been revolutionized by the integration of psychological perspectives including the field of psychoanalysis This volume differs from other recent publications on the topic of psychoanalysis and religion in drawing upon the entire field of psychoanalytic involvement with religion It is interdisciplinary in approach and unlike other books on the topic brings together an exceptional combination of theoretical empirical and clinical studies No other book provides integrated examples of all three types of work

SCM Studyguide:

Philosophy and the Christian Faith Ben Pugh,2018-11-30 The challenges that Western culture keeps posing to the Christian faith are ever new The goal posts keep changing This study guide will equip theology students to understand the

culture shaping beliefs that are driving the kinds of questions it brings to faith It will be an historical overview of the key stages in the history of Western philosophy with each section carefully tracing the genealogical line of ideas and the Christian responses to them right up to the present day *Freud and Faith* Kirk A. Bingaman, 2012-02-01 Whether Sigmund Freud's theory precludes serious engagement with psychoanalytic theory for those professing faith in the God of the Judeo-Christian tradition has been controversial for years Coming to terms with Freud's theory has proved difficult for religious believers because of his stance that religious faith is little more than psychological projection Building on the work of philosopher and theologian Paul Ricoeur psychoanalyst Ana Maria Rizzuto and feminist theorist Judith Van Herik author Kirk A. Bingaman demonstrates that it is possible and even advantageous for believers to hold their religious faith in dialectical tension with psychoanalysis Bingaman shows how Freud's critique of religion can enrich and strengthen rather than destroy the faith of the believer What emerges from the author's argument is a creative method for living within the emotional and spiritual tension that develops whenever our belief system is challenged or disrupted SCM Studyguide to Science and Religion Jean Dorricott, 2005 This undergraduate level one textbook provides an introduction to the apparently incompatible subjects of religion and science Each chapter contains references for finding out more about particular arguments be they scientific or religious areas for discussion Where particularly difficult concepts are referred to in the body of the text further explanations are provided in boxed sections Study Guide for Fundamentals of Nursing Carol Lillis, Priscilla LeMone, Marilee LeBon, Pamela Lynn, 2010-11-01 Created in conjunction with Fundamentals of Nursing Seventh Edition this Study Guide helps students review and apply concepts from the textbook to prepare for exams as well as nursing practice Each chapter includes three sections Practicing for NCLEX containing multiple choice and alternate format questions Developing Your Knowledge Base including a variety of questions formats such as fill in the blank matching and short answer and Applying Your Knowledge comprised of critical thinking questions reflective practice scenarios and patient care studies An Answer Key appears at the back of the book **Study Guide to Accompany World Religions, Warren Matthews** David C. data theory outline analysis of psychologist s place in history summary of critical response to the theory the theory in action and more Freud on Femininity and Faith Judith Van Herik,1985 **Sigmund Freud in Plain and Simple English** BookCaps Study Guides Staff,2011 The works and thoughts of Sigmund Freud has been scaring people for years All his talk about Id ego and Super Ego is enough to send some people running to their mothers But Freud doesn t have to be complicated This short book looks at Freud s most popular theories like the unconscious mind the mechanism of repression dream psychology the Id Ego and Super Ego and of course penis envy and puts it in language that anyone can understand It s the perfect introduction for people interested in psychology or students struggling to understand key concepts **Atheism for Beginners** Michael Palmer,2013-02-28 Hurray for Michael Palmer is how Michael Martin the distinguished American philosopher greeted Palmer s The Atheist s Primer Lutterworth 2012 Atheism for Beginners by providing a coursebook for schools and colleges differs from its predecessor in being designed specifically for teachers and their students Yet although different in focus and format the intention remains the same to reinstate the importance of philosophy within the debate about God s existence and to act as a corrective to the largely Darwinian criticisms levelled against religious belief by Richard Dawkins and the so called new atheists So in Palmer s lively history of atheism extending from the ancient Greeks to the present day we meet the enduring philosophical arguments against God and the great literature in which they are expressed Atheism for Beginners is user friendly and presumes no special grounding in philosophy Throughout assistance is given by numerous aids to learning there are exercises marginal notes essay questions bibliographies and a glossary Also provided are fourteen short biographies of famous atheists In these respects Palmer follows the format first presented in his widely read Moral Problems of 1991 long established as a core text in the teaching of philosophy In Atheism for Beginners Palmer covers the main atheistic arguments discussing issues such as creation morality evil miracles and the motivations of belief Particular attention is paid to the work of Hume Marx Nietzsche and Freud with a special chapter devoted to the development of disproof atheism Atheism is often criticized for being unduly pessimistic that without God there is nothing to look forward to no life after death no final righting of wrongs and no hope of salvation But this Palmer argues is a slander against the atheistic outlook He concludes therefore on a positive note explaining that happiness and personal fulfilment are to be found in the very materialism that religious belief rejects **Current Catalog** National Library of Medicine (U.S.),1992-10
