Shinners, Dissos and Dissenters: Irish republican media activism since the Good Friday Agreement Paddy Hoey, 2018-01-17 Shinners, dissos and dissenters is a long term analysis of the development of Irish republican media activism since 1998 and the tumultuous years that followed the end of the Troubles It is the first in depth analysis of the newspapers magazines and online spaces in which strands of Irish republicanism developed and were articulated in a period in which schism and dissent underscored a return to violence for dissidents Based on an analysis of Irish republican media outlets as well as interviews with the key activists that produced them this book provides a compelling snapshot of a political ideology in transition as it is moulded by the forces of the Peace Process and often violent internal ideological schism that threatened a return to the bad old days of the Troubles **Peace**

and Ethnic Identity in Northern Ireland Henry Jarrett, 2017-10-16 Consociational power sharing is often perceived to be the method of conflict management that is most likely to succeed in deeply divided societies The case of Northern Ireland in particular is heralded by many as a consociational success story Since the signing of the Good Friday Belfast Agreement in 1998 significant conflict transformation has taken place in the form of a considerable reduction in levels of violence and the establishment of power sharing between unionists and nationalists This book looks at what consociational power sharing achieves after its implementation specifically whether it can work to overcome existing identities in divided societies or whether it simply freezes divisions It argues that if consociational power sharing is facilitating a move towards a genuinely shared society this would be demonstrated in the focus of the election campaigns of Northern Ireland's political parties which would be almost exclusively based around socio economic issues affecting the whole population rather than narrow single identity concerns However the book claims that on the whole this has not been realised Although election campaigns are today less strident than they were in the pre 1998 era it remains the case that they usually foreground single identity symbolism as it is this that resonates with voters Whilst consociational power sharing has been very successful in reducing levels of violent conflict and facilitating elite level cooperation between unionists and nationalists it has been much less successful in reducing divisions within wider society to facilitate a genuinely shared Northern Irish identity By establishing an important middle ground between consociational proponents and critics this research will be of significant interest to students and scholars of ethnic politics political sociology conflict management and divided societies more generally
