HC 369 - Devolution: The Next Five Years and Beyond Great Britain. Parliament. House of Commons. Communities and Local Government Committee, 2016 The Government has announced a devolution revolution transferring powers and opportunities to local government through a series of devolution deals The Cities and Local Government Devolution Bill gives statutory authority to deals and enables some of the specific reforms the Government wishes to make such as introducing directly elected mayors for combined authorities This inquiry set out to examine the contents of the Bill and in particular whether Greater Manchester's deal is a model for other areas but its scope quickly widened to a review of the way in which devolution in England is proceeding The Committee has identified various aspects of the current approach that it recommends are refined and improved The Committee has found a significant lack of public consultation and engagement at all stages in the devolution process The public should be engaged in the preparation of devolution proposals insofar as possible during the negotiations and once the results of a deal have begun to make an impact and communicated to throughout the process This is particularly the case for health devolution where the systems in place are complex changes are consequently more difficult to understand and the public's response is likely to be more emotional The Committee also believes that the Government's approach to devolution in practice has lacked rigour as to process there are no clear measurable objectives for devolution It suggests various ways in which proper process can be ensured

Exclusion and Inclusion in International Migration: Power, Resistance and Identity Armağan Teke Lloyd, 2019-04-30

People on the move face new barriers in a globalizing world. Some of these barriers are related with the rise of an increasingly security oriented approach towards international migrants. Notwithstanding the forces of globalization, states have maintained their monopoly power over whom to admit and whom to deny within their borders. In other words, they remain the sovereign authority regulating the entry and exit of people. However, in recent years, a number of states have singled out international immigration as the greatest political and social threat to their cultural and national security. The securitization of immigration is founded upon the premise that the international movement of people represents an exceptional risk for the survival of the nation and this is often associated with terrorism, instability, and criminality. The securitization of immigration is also based on the idea that the traditional authority vested in states to regulate immigration is somehow insufficient and needs to be enhanced. These assumptions correspond with a real policy shift in some countries such as the United States, where the government is planning to spend approximately 23 Billion Dollars on border security and immigration enforcement in 2019 alone. This edited volume is an exploration of the global landscapes inhabited by refugees and labour migrants, although the focus is largely on the former. Despite the fact that most of the empirical studies are drawn from within Europe, the book also includes research on Nepal, Australia, the Middle East, and Japan in order to reveal the truly global dimensions of migration and the regimes governing this. Content: INTRODUCTION by Arma an Teke Lloyd; PART A Ideology and Governance of Migration; CHAPTER 1 Coming to Terms with Liberal Democracy by the Populist Radical Right Parties of Western Europe; Evidence from European Parliament Speeches over Minorities and Migration by Caner Tekin; CHAPTER 2 A Forest with many trees: Mapping migration governance and the dispersion of authority in Europe by Lisa Marie Borrelli; Rebecca Mavin and Giorgia Trasciani; CHAPTER 3 Policing Migrants in Transit and Upon Arrival: The Bordering Tactic of Integration in Austria and Germany by Olivia Johnson; PART B Regulations: Suspension of Human Rights; CHAPTER 4 Borders: Exception and Sovereignty: Australia's Migration Policies as Instruments of Suspension of Human Rights and International Obligations by Ana Carolina Macedo Abreu; CHAPTER 5 Power and Sandwiched Sovereignty: Nepali Migrant Workers in the Gulf Countries by Hari KC; CHAPTER 6 The Body and Embodied Experiences in the British Asylum System: Developing a Conceptual Perspective by Rebecca Mavin; CHAPTER 7 Eritrean Unaccompanied Refugee Minors in The Netherlands: Wellbeing and Health by Anna de Haan; Yodit Jacob Trudy Mooren and Winta Ghebreamichael Tadesse; PART C Migrants: Strategies and Identities; CHAPTER 8 Social Inclusion Processes for unaccompanied minors in the city of Palermo: Fostering Autonomy through a New Social Inclusion Model by Roberta Lo Bianco and Georgia Chondrou; CHAPTER 9 Urban Resistances and Migrant Activism: Challenging the Border Regime in Madrid City by Ana Santamarina and Almudena Cabezas; CHAPTER 10 RefConnect: A Mobile Social Network for Refugees by Evdokia Kogia Styliani, Liberopoulou Nikolaos, Alamanos Vasilis, Pierros and Christos Michalakelis; CHAPTER 11 Halo Halo: Nostalgia and Navigating Life for Overseas Filipino Workers (OFWs) in the Kingdom of Saudi Arabia by Simeon S. Natural Gas Michael J. Bradshaw,Tim Boersma,2020-04-23 Is natural gas the bridge to our low carbon future In power generation industrial processes parts of the transportation sector and for domestic use natural gas still has the potential to play a greater role in various energy transition pathways around the world But such a future is by no means certain In this book Michael Bradshaw and Tim Boersma offer a sober and balanced assessment of the place of natural gas in the global energy mix today and the uncertainties that cloud our understanding of what that role may look like in the future They argue that natural gas has become prominent in recent decades spurred by two revolutions the first has been the rise of unconventional natural gas production and the second the coming of age of the market for liquefied natural gas LNG However a third revolution is required to secure natural gas long term role in various energy transition pathways as countries are increasingly pushing to address air quality concerns and curtail greenhouse gas emissions This revolution has to take place as politicians citizens investors and shareholders are becoming increasingly vocal about the need to improve the environmental footprint of the fuel while simultaneously and perhaps paradoxically demand for it continues to grow in a world where geopolitical challenges seem to be mounting
