## Geography Sl 2013 Past Paper:

*The Archaeology of the Homed and the Unhomed* Daniel O. Sayers, 2023-02-28 Choice Outstanding Academic Title The first comprehensive discussion of the historical archaeology of homelessness In a time when the idea of home has become central to living the American dream The Archaeology of the Homed and the Unhomed brings to the forefront the concept of homelessness The book points out that homelessness remains underexplored in historical archaeology a fact which may reflect societal biases and marginalization and it provides the field's first comprehensive discussion of the subject Daniel Sayers argues that the unhomed and the home have been inherently interconnected in the real world across the past several centuries Sayers builds a conceptual model that focuses on this dynamic and uses it to generate new insights into pre Civil War communities of Maroons and Indigenous Americans Great Depression era hobo communities and Midwest farmsteads In doing so he highlights the social complexities ambiguities and significance of the home and the unhomed in the archaeological record Using a variety of data sources including documentary records and material culture and drawing on extensive fieldwork Sayers illuminates how homelessness is created reproduced and disparaged by the dominant culture The book also emphasizes the importance of applied archaeology Through these studies Sayers contends that activist archaeologists have a role and responsibility to share their knowledge to help policy makers and stakeholders understand the unhomed homelessness and the American experience in this area A volume in the series the American Experience in Archaeological Perspective edited by Michael S Nassaney and Krysta Ryzewski

*Geographic Information Science* Jennifer A. Miller, David O'Sullivan, Nancy Wiegand, 2016-09-13 This book constitutes the refereed proceedings of the 9th International Conference on Geographic Information Science GIScience 2016 held in Montreal QC Canada in September 2016 The 21 full papers presented were carefully reviewed and selected from 63 submissions The papers are organized in topical sections such as spatial algorithms network analysis spatial analysis spatial methods user generated data and linked data automated cartography and geovisualization

**Beyond Energy** Jacopo Maria Pepe, 2017-11-22 Jacopo Maria Pepe examines the rapid development of non energy transport infrastructure in the broader Eurasian space By doing so the author considers the ongoing structural transformation of the Eurasian continent against the backdrop of deepening commercial interconnectivity in Eurasia into broader areas of trade supported by the rapid development of rail connectivity He frames this process in a long wave historical analysis and considers in detail the geopolitical geo economic and theoretical implications of deepening physical connectivity for the relationships among China Russia Central Asia and the European Union

Handbook on the Geographies of Money and Finance Ron Martin, Jane Pollard, 2017-03-31 The aim of this timely work which appears in the wake of the worst global financial crisis since the late 1920s is to bring together high quality research based contributions from leading international scholars involved in constructing a geographical perspective on money Topics covered include the crisis the spatial circuits of finance regulation mainstream financial markets banking equity etc through to the various alternative and disruptive forms of money that have arisen in recent years It will be of interest to geographers political scientists sociologists economists planners and all those interested in how money shapes and reshapes socio economic space and conditions local and regional development

Addressing Environmental and Food Justice toward Dismantling the School-to-Prison Pipeline Anthony J. Nocella II, K. Animashaun Ducre, John Lupinacci, 2016-11-10 This cutting edge collection of essays presents to the reader leading voices within food justice environmental justice and school to prison pipeline movements While many schools community organizers professors politicians unions teachers parents youth social workers and youth advocates are focusing on curriculum discipline policies policing practices incarceration demographics and diversity of staff the authors of this book argue that even if all those issues are addressed healthy food and living environment are fundamental to the emancipation of youth This book is for anyone who wants to truly understand the school to prison pipeline as well as those interested in peace social justice environmentalism racial justice youth advocacy transformative justice food veganism and economic justice

*Do-Gooders at the End of Aid* Antoine de Bengy Puyvallée, Kristian Bjørkdahl, 2021-07-22 This book argues that policymakers capitalize on Scandinavia's humanitarian reputation in world affairs to legitimize their policy and diplomatic interests

**Incomplete Streets** Stephen Zavestoski, Julian Agyeman, 2014-08-27 The Complete Streets concept and movement in urban planning and policy has been hailed by many as a revolution that aims to challenge the auto normative paradigm by reversing the broader effects of an urban form shaped by the logic of keeping automobiles moving By enabling safe access for all users Complete Streets promise to make cities more walkable and livable and at the same time more sustainable This book problematizes the Complete Streets concept by suggesting that streets should not be thought of as merely physical spaces but as symbolic and

social spaces When important social and symbolic narratives are missing from the discourse and practice of Complete Streets what actually results are incomplete streets The volume questions whether the ways in which complete streets narratives policies plans and efforts are envisioned and implemented might be systematically reproducing many of the urban spatial and social inequalities and injustices that have characterized cities for the last century or more From critiques of a mobility bias rooted in the neoliberal foundations of the Complete Streets concept to concerns about resulting environmental gentrification the chapters in *Incomplete Streets* variously call for planning processes that give voice to the historically marginalized and more broadly that approach streets as dynamic fluid and public social places This interdisciplinary book is aimed at students researchers and professionals in the fields of urban geography environmental studies urban planning and policy transportation planning and urban sociology

*Handbook of Proximity Relations* Torre, André, Gallaud, Delphine, 2022-01-18 This Handbook is a state of the art analysis of proximity relations offering insights into its history alongside up to date scientific advances and emerging questions Its broad scope from industrial and innovation approaches through to society issues of living and working at a distance territorial development and environmental topics will ensure an in depth focus point for researchers in economics as well as geography organizational studies planning and sociology

*Mediterranean Cities and Island Communities* Anastasia Stratigea, Dimitris Kavroudakis, 2018-09-12 This book addresses the issue of smart and sustainable development in the Mediterranean MED region a distinct part of the world full of challenges and risks but also opportunities Above all the book focuses on smartening up small and medium sized cities and insular communities taking into account their geographical peculiarities the pattern of MED urban settlements and the abundance of island complexes in the MED Basin Taking for granted that sustainability in the MED is the overarching policy goal that needs to be served the book explores different aspects of smartness in support of this goal s achievement In this respect evidence from concrete smart developments adopted by forerunners in the MED region is collected and analyzed coupled with experiences gathered from successful non MED examples of smart efforts in European countries More specifically current research and empirical results from MED urban environments are discussed as well as findings from or concerning other parts of the world which are of relevance to the MED region The book s primary goal is to enable policymakers planners and decision making bodies to recognize the challenges and options available and make to more informed policy decisions towards smart sustainable inclusive and resilient urban and regional futures in the MED

**Place Event Marketing in the Asia Pacific Region** Waldemar Cudny, 2021-08-19 This book explores the fascinating phenomenon of place event marketing in the Asia Pacific region It examines procedures in the promotion and branding of places that use events to shape their identities It considers how events are used in forming a branded image of a place and disseminate information about it This innovative book offers theoretical insights of the opportunities and challenges related to place event marketing With contributions from leading thinkers in the field chapters also draw on empirical examples to showcase a

variety of events across the Asia Pacific such as MICE sporting events festivals and religious and cultural celebrations The book explores the importance of such events for the socio economic development of urban regions Today the Asia Pacific is one of the world s fastest developing regions and its rising economic power is accompanied by the growing importance of the tourism and event sector The book is a unique study relating to a very exceptional region of the world The role of events in tourism development and the rise of the region s soft power is presented through carefully selected examples of cities from different countries The book concludes with commentary on the future directions for research in this area Written in an accessible style this book will be of great interest to students scholars and practitioners working in events studies urban studies tourism place branding and promotion business and management studies geography sociology and sport and leisure studies

**Sustainable Utilization and Conservation of Africa's Biological Resources and Environment** Sylvester Chibueze Izah,Matthew Chidozie Ogwu,2023-04-17 This edited book highlights the potential and actual contributions of the sustainable management and utilization of indigenous biological resources and environment for the development of Africa The book centers on documenting current trends and issues in the field of resource use and conservation with the view of emphasizing their benefits to the pursuit of development within the region By documenting the array of natural resources and environment in Africa this book addresses the topical knowledge and understanding gaps that characterize conservation rationale for sustainable resource exploration utilization patterns and conservation challenges including policy status environmental threats impacts of tourism reduction in food resources etc and their effects on the sustainable development of Africa Through an integrated approach the book focuses on below and above ground biological resources and the diverse scales of environment that characterize Africa This collection of works is very helpful for natural and social scientists policymakers strategists researchers government and non government organizations biodiversity and environmental managers climate change scientists practitioners activists conservationists academics ecologists undergraduate and postgraduate students and others who want to learn about and understand the best way to use and protect Africa s resources and heritage sustainably

Climate Change Adaptation in North America Walter Leal Filho,Jesse M. Keenan,2017-05-27 This edited book responds to the need for a better understanding of how climate change affects North America and for the identification of processes methods and tools that may help countries and communities to develop a more robust adaptive capacity It showcases successful examples of how to manage the social economic and environmental complexities posed by climate change The book attempts to synthesize various branches of resilience and adaptation scholarship into a cohesive text that highlights field research and best practices that are shaping policy and practice in a wide geography from the coastal conditions of the Caribbean to the thawing landscape of the Arctic Circle

**Globalization and Europe's Rural Regions** Birte Nienaber,2016-03-03 This book examines the multiple ways in which rural regions in Europe are being restructured through globalization and the regional development responses that they have adopted It provides an

understanding of the key challenges and opportunities for rural regions arising from the major economic social political and cultural changes associated with globalization including trade liberalization and economic deregulation increased international migration and the rise of global consciousness about environmental issues Drawing on examples and findings from a major European research project DERREG the book presents detailed case studies of ten regions in different parts of Europe exploring the factors that lead to different experiences of globalization in each of the regions and highlighting examples of good practice in regional development responses The book concludes by proposing a typology of regional responses to globalization and considering the policy implications of the research findings As such Globalization and Europe's Rural Regions is important reading for geographers sociologists planners and economists interested in understanding the impact of globalization in rural regions and for rural development professionals seeking to mobilize effective responses

**Lords and Towns in Medieval Europe** Howard B. Clarke,Anngret Simms,2017-07-14 This volume is the first publication to draw upon the mass of information provided by the Historic Towns Atlases in order to explore comparative questions in medieval urban history The volume addresses the wider question of comparative urban studies the processes that determined the morphological formation of towns and the symbolic meaning of large scale town plans in their cultural context

Connections Jean Hillier,Jonathan Metzger,2017-05-15 The professional practice as well as the academic discipline of planning has been fundamentally re-invented all over the world in recent decades In this astonishing transition the thinking and scholarship of Patsy Healey appears as a constantly recurring influence and inspiration around the globe The purpose of this book is to present discuss and celebrate Healey's seminal contributions to the development of the theory and practice of spatial planning The volume contains a selection of 13 less readily available but nevertheless key texts by Healey which have been selected to represent the trajectory of Patsy's work across the several decades of her research career 12 original chapters by a wide range of invited contributors take the ideas in the reprinted papers as points of departure for their own work tracing out their continuing relevance for contemporary and future directions in planning scholarship In doing so these chapters tease out the themes and interests in Healey's work which are still highly relevant to the planning project The title Connections symbolises relationality possibly the most outstanding element linking Patsy's ideas The book showcases the wide international influence of Patsy's work and celebrates the whole trajectory of work to show how many of her ideas on for instance the role of theory in planning processes of change networking as a mode of governance how ideas spread and ways of thinking planning democratically were ahead of their time and are still of importance

In the Garden of the Gods Eva Anagnostou-Laoutides,2016-07-07 Examining the evolution of kingship in the Ancient Near East from the time of the Sumerians to the rise of the Seleucids in Babylon this book argues that the Sumerian emphasis on the divine favour that the fertility goddess and the Sun god bestowed upon the king should be understood metaphorically from the start and that these metaphors survived in later historical periods through popular literature

including the Epic of Gilgame and the Enuma Eli The author s research shows that from the earliest times Near Eastern kings and their scribes adapted these metaphors to promote royal legitimacy in accordance with legendary exempla that highlighted the role of the king as the establisher of order and civilization As another Gilgame and later as a pious servant of Marduk the king renewed divine favour for his subjects enabling them to share the Garden of the Gods Seleucus and Antiochus found these cultural ideas as they had evolved in the first millennium BCE extremely useful in their efforts to establish their dynasty at Babylon Far from playing down cultural differences the book considers the ideological agendas of ancient Near Eastern empires as having been shaped mainly by class rather than race minded elites

*Innovation for Sustainable Development* Jean-Yves Grosclaude,Rajendra K. Pachauri,Laurence Tubiana,2014-02-20 Innovation has become the new buzzword across the globe International organisations governments corporates academia and society see it as the answer to the major economic social and environmental transformations challenging the models of the 20th century Innovations are occurring worldwide and alternative solutions to the existing problems are emerging in all sectors electric cars organic farming renewable energy and e learning are good examples These alternatives can be ascribed with qualities such as decentralized frugal flexible smart and democratic virtues that are lacking in conventional models They are attributed with the potential to meet the overall global challenges such as climate change and the growing inequalities between and within countries What is the real potential of innovation Does the rapid deployment of innovations lead towards a more sustainable and inclusive society Can innovations and the emerging alternatives replace conventional models Beyond technologies what institutional innovations are required to support sustainable development A Planet for Life 2014 aims to answer these questions and explore innovation in all its aspects through a series of texts written by international experts The objective of this book is to analyse experiences from across the world and the role of innovation in a variety of areas of development such as urbanization agriculture and food the mobility of people and freight education and the provision of water and energy to all
