

DEAR MY STUDENTS

I think you're very special,
And I just want you to know,
My time here has been amazing
I'm so sad I have to go.

I've watched you learn and grow,
and change from day to day.
I hope that the things I've done,
Have helped in some small way.

I'll remember to come visit,
I would love to see you grow.
You still have lots to learn ahead,
But there is one thing you should
know.

The thing that makes you wonderful,
And will shine through all you do,
Is just to be yourself,
And be proud that you are YOU

Love your Teacher

the state the Chinese gave up a millennium wide lead in shipping to the Europeans for example when an Emperor banned large ocean going vessels the impact of science as well as religion politics and even nutrition He questions the importance of such commonly cited factors as the spill over benefits of war the abundance of natural resources life expectancy and labor costs Today an ever greater number of industrial economies are competing in the global market locked in a struggle that revolves around technological ingenuity The Lever of Riches with its keen analysis derived from a sweeping survey of creativity throughout history offers telling insights into the question of how Western economies can maintain and developing nations can unlock their creative potential
