The Opposite of Hate Sally Kohn,2018-04-10 Brilliantly illustrates the immense and disarming power of changing course and driving not toward division but toward civility and mutual respect Ms magazine As a progressive commentator on Fox News and now CNN Sally Kohn has made a career out of bridging intractable political differences In this age of dangerous partisan resentment and rising bigotry she decided to investigate hate itself to better consider how we can stop it With her trademark humor and humanity Kohn introduces us to leading researchers and scientists who are exploring the evolutionary and cultural roots of hate She travels to Rwanda to the Middle East and across the United States talking with former terrorists and reformed white supremacists and even sitting down with some of her own Twitter trolls What she discovers is surprising All of us harbor hate but the powerful acknowledgment that we are all in this together can lead us out of the wilderness The opposite of hate is connection

The Routledge Handbook on Crime and International Migration is concerned with the various relationships between migration crime and victimization that have informed a wide criminological scholarship often driven by some of the original lines of inquiry of the Chicago School Historically migration and crime came to be the device by which Criminology and cognate fields sought to tackle issues of race and ethnicity often in highly problematic ways However in the contemporary period this body of scholarship is inspiring scholars to produce significant evidence that speaks to some of the biggest public policy questions and debunks many dominant mythologies around the criminality of migrants The Routledge Handbook on Crime and International Migration is also concerned with the theoretical empirical and policy knots found in the relationship between regular and irregular migration offending and victimization the processes and impact of criminalization and the changing role of criminal justice systems in the regulation and enforcement of international mobility and borders The Handbook is focused on the migratory fault lines between the Global North and Global South which have produced new or accelerated sites of state control constructed irregular migration as a crime and security problem and mobilized ideological and coercive powers usually reserved for criminal or military threats Offering a strong international focus and comprehensive coverage of a wide range of border criminal justice and migration related issues this book is an important contribution to criminology and migration studies and will be essential reading for academics students and practitioners interested in this field Eskom Sylvie Jaglin, Alain Dubresson, 2016-08-16 Africa's leading

producer of electricity Eskom Holdings SOC Ltd is also a vertically integrated monopoly owned by the South African state This national champion was shaken in 2008 when it was obliged to introduce load shedding or rolling blackouts and again in late 2014 Trying to understand how and why one of the iconic pillars of South African state capitalism is now in distress the authors of this book argue that the so called electricity crisis is in fact a public monopoly crisis Moving beyond technical aspects they explore the relationship between state power and Eskom before during and after apartheid From this

perspective they suggest that the current technical and financial troubles of this public utility are illustrative of the weakening of its technopolitical regime of how national institutions have governed Eskom's technological development and of the pursuit of political goals in the production of electrical power. Without a clear industrial strategy during the 2000s Eskom became a powerful tool of Broad Black Economic Empowerment as well as a neopatrimonial system which generates profits captured by the ruling party. As a result crisis in Eskom shakes the whole political edifice. Inefficient and its finances increasingly under scrutiny this state owned enterprise's existence as a monopolistic public utility is regularly a subject of debate. The authors discuss the ambivalent role of Eskom in the national energy transition policy and whether solutions point in the direction of de-integrating this public monopoly and allowing its current technopolitical regime to enter a planned or natural decline.

Business Culture in Putin's Russia John Kennedy, 2021-11-10 This book examines how Russia's entrepreneurs operate in a business environment beset with risk and uncertainty. The challenges they may encounter include an unreliable judicial system, insecure property rights, arbitrary interference from officials as well as corruption, harassment, suspicion and violence. Based on extensive original research including fieldwork within three businesses, this book explores how entrepreneurs survive and some thrive. It focuses on the kind of obstacles they face from day to day, details their motivations, rationale and methods, and describes the actual relationship between ordinary entrepreneurs and the state, providing new insights into business-state relations.

Chasing Archipelagic Dreams David R. Saunders, 2024-12-15 In *Chasing Archipelagic Dreams* David R. Saunders demonstrates that the withdrawal of the British imperial state from Sabah did not result in the decolonization of the territory. From the late 1940s to the 1960s international anti-colonialism interacted with regional competition over Sabah to result in a paradoxical increase of British power and influence on the ground. Meanwhile ethnic, social and political heterogeneity in Sabah contributed to fragmentation and disunity, undermining the development of a local anti-colonial movement. Instead a class of influential local elites seized power as competing attempts by the Philippines, Indonesia and Malaya to incorporate the territory into their respective archipelagic spheres grew in strength. Due to these local and international rivalries Saunders argues Sabah's eventual merger with the Federation of Malaysia in 1963 prompted an extension of colonial style rule, resource extraction, the suppression of local autonomy and the imposition of an externally configured national identity. *Chasing Archipelagic Dreams* underscores the significance of regional rivalries in the South China Sea and highlights the fate of subaltern communities bisected by post-colonial borders.
