Entrepreneurship Development I Project Work II Board Examination Paper **Neoliberal Apartheid** Andy

Clarno,2017-03-07 In recent years as peace between Israelis and Palestinians has remained cruelly elusive scholars and

activists have increasingly turned to South African history and politics to make sense of the situation. In the early 1990s both South Africa and Israel began negotiating with their colonized populations. South Africans saw results: the state was democratized and black South Africans gained formal legal equality. Palestinians on the other hand won neither freedom nor equality and today Israel remains a settler colonial state. Despite these different outcomes, the transitions of the last twenty years have produced surprisingly similar socioeconomic changes in both regions: growing inequality, racialized poverty, and advanced strategies for securing the powerful and policing the racialized poor. Neoliberal Apartheid explores this paradox through an analysis of de-colonization and neoliberal racial capitalism. After a decade of research in the Johannesburg and Jerusalem regions, Andy Clarno presents here a detailed ethnographic study of the precariousness of the poor in Alexandra township, the dynamics of colonization and enclosure in Bethlehem, the growth of fortress suburbs and private security in Johannesburg, and the regime of security coordination between the Israeli military and the Palestinian Authority in the West Bank. The first comparative study of the changes in these two areas since the early 1990s, the book addresses the limitations of liberation in South Africa, highlights the impact of neoliberal restructuring in Palestine, and argues that a new form of neoliberal apartheid has emerged in both contexts.

For the Many Dorothy Sue Cobble, 2024-12-10. A history of the twentieth-century feminists who fought for the rights of women workers and the poor, both in the United States and abroad. For the Many presents an inspiring look at how US women and their global allies pushed the nation and the world toward justice and greater equality for all. Reclaiming social democracy as one of the central threads of American feminism, Dorothy Sue Cobble offers a bold rewriting of twentieth-century feminist history and documents how forces, peoples, and ideas worldwide shaped American politics. Cobble follows egalitarian women's activism from the explosion of democratic movements before World War I to the establishment of the New Deal, through the upheavals in rights and social citizenship at mid-century to the reassertion of conservatism and the revival of female-led movements today. Cobble brings to life the women who crossed borders of class, race, and nation to build grassroots campaigns, found international institutions, and enact policies dedicated to raising standards of life for everyone. Readers encounter famous figures including Eleanor Roosevelt, Frances Perkins, and Mary McLeod Bethune, together with less well-known leaders such as Rose Schneiderman, Maida Springer Kemp, and Esther Peterson. Multiple generations partnered to expand social and economic rights, and despite setbacks, the fight for the many persists as twenty-first-century activists urgently demand a more caring, inclusive world. Putting women at the center of US political history, For the Many reveals the powerful currents of democratic equality that spurred American feminists to seek a better life for all.

The Emergence of Brand-Name Capitalism in Late Colonial India Douglas E. Haynes, 2022-09-22. This book examines the emergence of professional advertising in western India during the interwar period. It explores the ways in which global manufacturers advanced a brand-name capitalism among the Indian middle class by promoting the sale of global commodities during the 1920s and 1930s, a time when advertising was first

introduced in India as a profession and underwent critical transformations Analysing the cultural strategies both verbal and visual used by foreign businesses in their advertisements to capture urban consumers Haynes argues that the promoters of various commodities crystalized their campaigns around principles of modern conjugality He also highlights the limitations of brand name capitalism during this period examining both its inability to cultivate markets in the countryside or among the urban poor and its failure to secure middle class customers With numerous examples of illustrated advertisements taken from Indian newspapers the book discusses campaigns for male sex tonics and women s medicines hot drinks such as Ovaltine and Horlicks soaps such as Lifebuoy Lux and Sunlight cooking mediums such as Dalda and electrical household technologies By examining the formation of brand name capitalism and two key structures that accompanied it the advertising agency and the field of professional advertising this book sheds new light on the global consumer economy in interwar India and places developments in South Asia into a larger global history of consumer capitalism **Fractivism**
