Histories And Stories From Chiapas:

Histories and Stories from Chiapas R. Aída Hernández Castillo, 2010-01-01 The 1994 Zapatista uprising of Chiapas Maya peoples against the Mexican government shattered the state myth that indigenous groups have been successfully assimilated into the nation In this wide ranging study of identity formation in Chiapas A da Hern ndez delves into the experience of a Maya group the Mam to analyze how Chiapas indigenous peoples have in fact rejected accepted or negotiated the official discourse on being Mexican and participating in the construction of a Mexican national identity Hern ndez traces the complex relations between the Mam and the national government from 1934 to the Zapatista rebellion She investigates the many policies and modernization projects through which the state has attempted to impose a Mexican identity on the Mam and shows how this Maya group has resisted or accommodated these efforts In particular she explores how changing religious affiliation women s and ecological movements economic globalization state policies and the Zapatista movement have all given rise to various ways of being Mam and considers what these indigenous identities may mean for the future of the Mexican nation The Spanish version of this book won the 1997 Fray Bernardino de Sahag n national prize for the best social anthropology research in Mexico

Stand Up and Fight María L. O. Muñoz, 2016-05-12 In 1975 a watershed moment captivated Mexico as indigenous peoples from across the country came together on the Island of Janitzio for the First National Congress of Indigenous Peoples The congress was a federal government initiative intended to preempt an independent indigenous movement But indigenous groups circumvented the intended containment policies of the congress and made bold demands for political self determination Using previously unavailable documents Mar a L O Mu oz examines the events that led to the congress the meeting itself and developments after the assembly Mu oz shows how indigenous leaders working within Mexico s Department of Colonization and Agrarian Affairs DAAC sidestepped state attempts to control indigenous communities and how they made bold demands that redefined the ways federal and state governments engaged with pueblos ind genas Through research in previously untapped archives Mu oz is able to trace the political history of the indigenous leaders and government officials who redefined the ways indigenous peoples engaged with governments She illustrates the fluid and evolving power relationships of the key players with a focus on the twelve years of populism in the last decades of the twentieth century This book challenges the discourse of unquestioned power and hegemony of the national ruling party the Institutional Revolutionary Party PRI and it illustrates how indigenous communities in Mexico reimagined their roles in the social political and economic life of the nation

Constructing Citizenship Catherine A. Nolan-Ferrell, 2012-05-01 During the late nineteenth and early twentieth centuries people living in the coffee producing region of the Sierra Madre mountains along the Pacific Coast of Mexico and Guatemala paid little attention to national borders The Mexican Revolution particularly during the 1930s reconstruction phase ruptured economic and social continuity because access to revolutionary reforms depended on claiming Mexican national identity Impoverished often indigenous

rural workers on both sides of the border used shifting ideas of citizenship and cultural belonging to gain power and protect their economic and social interests With this book Catherine Nolan Ferrell builds on recent theoretical approaches to state formation and transnationalism to explore the ways that governments elites and marginalized laborers claimed and contested national borders By investigating how various groups along the Mexico Guatemala border negotiated nationality *Constructing Citizenship* offers insights into the complex development of transnational communities the links between identity and citizenship and the challenges of integrating disparate groups into a cohesive nation Entwined with a labor history of rural workers Nolan Ferrell also shows how labor struggles were a way for poor Mexicans and migrant Guatemalans to assert claims to national political power and social inclusion Combining oral histories with documentary research from local regional and national archives to provide a complete picture of how rural laborers along Mexico's southern border experienced the years before during and after the Mexican Revolution this book will appeal not only to Mexicanists but also to scholars interested in transnational identity border studies social justice and labor history

Returns James Clifford, 2013-11-04 *Returns* explores homecomings the ways people recover and renew their roots Engaging with indigenous histories of survival and transformation James Clifford opens fundamental questions about where we are going separately and together in a globalizing but not homogenizing world It was once widely assumed that tribal societies were destined to disappear Sooner or later irresistible economic and political forces would complete the destruction begun by culture contact and colonialism But aboriginal groups persist a reality that complicates familiar narratives of modernization History is a multidirectional process where the word indigenous long associated with primitivism and localism takes on unexpected meanings In these probing essays native people in California Alaska and Oceania are shown to be agents not victims struggling within and against dominant forms of cultural identity and economic power Their returns to the land performances of heritage and diasporic ties are strategies for moving forward ways to articulate what can paradoxically be called traditional futures With inventiveness and pragmatism often against the odds indigenous people are forging original pathways in a tangled open ended modernity Third in a series that includes *The Predicament of Culture* and *Routes* this volume continues Clifford's signature exploration of intercultural representations travels and now returns

Subcommander Marcos Nick Henck, 2007-07-09 *Subcommander Marcos* made his debut on the world stage on January 1 1994 the day the North American Free Trade Agreement took effect At dawn from a town hall balcony he announced that the Zapatista Army of National Liberation had seized several towns in the Mexican state of Chiapas in rebellion against the government by sunset Marcos was on his way to becoming the most famous guerrilla leader since Che Guevara Subsequently through a succession of interviews communiqués and public spectacles the Subcommander emerged as a charismatic spokesperson for the indigenous Zapatista uprising and a rallying figure in the international anti globalization movement In this the first English language biography of Subcommander Marcos Nick Henck describes the thought leadership and

personality of this charismatic rebel spokesperson He traces Marcos's development from his provincial middle class upbringing through his academic career and immersion in the clandestine world of armed guerrillas to his emergence as the iconic Subcommander Henck reflects on what motivated an urbane university professor to reject a life of comfort in Mexico City in favor of one of hardship as a guerrilla in the mountainous jungles of Chiapas and he examines how Marcos became a conduit through which impoverished indigenous Mexicans could communicate with the world Henck fully explores both the rebel leader's renowned media savvy and his equally important flexibility of mind He shows how Marcos's speeches and extensive writings demonstrate not only the Subcommander's erudition but also his rejection of Marxist dogmatism Finally Henck contextualizes Marcos locating him firmly within the Latin American guerrilla tradition

Negotiation Within Domination Ethelia Ruiz Medrano, Susan Kellog, 2011-05-18 *Negotiation within Domination* examines the formation of colonial governance in New Spain through interactions between indigenous peoples and representatives of the Spanish Crown The book highlights the complexity of native negotiation and mediation with colonial rule across time culture and place and how it shaped colonial political and legal structures from the sixteenth to the eighteenth centuries Although indigenous communities reacted to Spanish presence with significant acts of resistance and rebellion they also turned to negotiation to deal with conflicts and ameliorate the consequences of colonial rule This affected not only the development of legal systems in New Spain and Mexico but also the survival and continuation of traditional cultures Bringing together work by Mexican and North American historians this collection is a crucially important and rare contribution to the field *Negotiation within Domination* is a valuable resource for native peoples as they seek to redefine and revitalize their identities and assert their rights relating to language and religion ownership of lands and natural resources rights of self determination and self government and

protection of cultural and intellectual property It will be of interest primarily to specialists in the field of colonial studies and historians and ethnohistorians of New Spain **The Oxford Handbook of Central American History** Robert H.

Holden,2022 Leading scholars of Central America offer critical analyses of major themes in the historiography of this seven country region of Latin America Chapters engage both the novice s search for basic orientation and context and the experienced scholar s interest in evaluative critiques of the historical literature Uprising of Hope Duncan Earle,Jeanne

Simonelli,2005-01-18 The Zapatistas of Chiapas Mexico have often been portrayed in reductive polarized terms either as saintly activists or dangerous rebels Cultural anthropologists Duncan Earle and Jeanne Simonelli drawing on decades long relationships and fieldwork attained a collegiality with the Zapatistas that reveals a more complex portrait of a people struggling with self determination on every level Seeking a new kind of experimental ethnography Earle Simonelli have chronicled a social experiment characterized by resistance autonomy and communality Combining their own compelling narrative as participant observers and those of their Chiapas compadres the authors effectively call for an activist approach to research The result is a unique ethnography that is at once analytical and deeply personal Uprising of Hope will be compelling reading for scholars and general readers of anthropology social justice ethnography Latin American history and ethnic studies **Women of Chiapas** Christine Eber,Christine Kovic,2013-10-18 This book presents the concerns visions
