Department of Education, 1956 **New England Journal of Education** ,1912 **Saturday Review** ,1869 **Journal of Education** ,1912 **Understanding Violence** Lorenzo Magnani, 2024-06-22 This book offers a philosophical account of violence engaged with both empirical and theoretical debates in disciplines such as cognitive science sociology psychiatry anthropology political theory evolutionary biology and

theology The primary thesis is that violence is intertwined with morality and typically enacted for moral reasons To show this the book compellingly demonstrates how morality operates to trigger and justify violence and how people in their violent behaviors can engage and disengage with discrete moralities The author s fundamental account of language and in particular its normative aspects is particularly insightful as regards extending the range of what is to be understood as violence beyond the domain of physical harm By employing concepts such as coalition enforcement moral bubbles cognitive niches overmoralization and military intelligence the book aims to spell out how perpetrators and victims of violence systematically disagree about the very nature of violence The author s original claim is that disagreement can be understood naturalistically described by an account of morality informed by evolutionary perspectives as well This book helps us come to terms with the fact that we are intrinsically violent beings To acknowledge this condition and our stupefying capacity to inflict harm is a responsibility we must face up to such understanding could ultimately be of help in order to achieve a safer ownership of our destinies by individuating and reinforcing those cognitive firewalls that would prevent violence from always escalating and overflowing This second edition is thoroughly revised and integrated with two new chapters to cover new aspects of violence and its understanding such as the role of looting finance in facilitating violent outcomes and the attack to scientific cognition and human creativity The SAGE Handbook of Qualitative Research Norman K. Denzin (ed),Yvonna S. Lincoln,2005 A thoroughly revised updated edition this volume includes new chapters on auto ethnography critical race theory queer theory testimonies Documents for America's History, Volume 2 Melvin Yazawa,James A.
