How To Raise A Good Kid English Edition:

Raising Good Children Thomas Lickona, 1994-09-01 Raising decent caring and responsible children is the most complex and challenging job in every parent's life and an increasingly difficult one in today's society. Here is the most authoritative book available on this crucial subject: a valuable and sensitive guide for parents who want their children to grow up with lifelong positive values. Based on fascinating research, this groundbreaking work by psychologist and educator Dr. Thomas Lickona describes the predictable stages of moral development from birth to adulthood. And it offers you down-to-earth advice and guidance for each stage. Seven caring ways to discipline terrible twos. Why your preschooler lies and how to handle it. What to do about a four-year-old's back talk. How to handle your seven-year-old's endless negotiations about what's fair. Why teens have trouble with peer pressure and how to help them. How to talk to your child about drugs, drinking, and sex. How to help children of any age reason more clearly about what's right and wrong. PLUS: A list of more than one hundred children's books that teach moral values and much more. An excellent book on a vastly neglected aspect of raising children. Dr. Fitzhugh Dodson, author *How to Parent*, *How to Father*. We have been waiting for a book like this for a long time: a readable work that translates a moral development into parents' language and experience. Dolores Curran, author of *Traits of a Healthy Family*. Truly integrates a moral development theory into a consistent approach to childrearing. Word of mouth recommendations from parent to parent may lift it to the level of popularity once held by Dr. Spock's book on child care. Moral Education Forum. *Raising Good Children* Anne Jesper, 2004-03 A guide to parenting that shows how children can be given direction through love and security to help them embrace their responsibilities. *Raising Mentally Strong Kids* Amen MD Daniel G., Charles Fay, Charles Fay PhD, 2024-03 The book gives parents practical tools to help children of all ages go from behaviors like defiance, meltdowns, and power struggles to being responsible, confident, kind, resilient, prepared to make good decisions, focused, and motivated and equipped to develop healthy relationships. *Good Kids, Tough Choices* Rushworth M. Kidder, 2010-08-20 A practical analysis and inspiring guide for teaching kids ethical fitness. Parents are beginning to realize that deficiencies in ethics and character are becoming a big problem among our nation's children. According to the latest data, lying, cheating, and rampant insensitivity to other people are increasingly common. What can parents do? In this book, ethics expert Rushworth Kidder shows how to customize interventions to a child's age and temperament. He encourages parents not to give up since what they do can always make a difference regardless of how long or deep the bad habits of dishonesty may be. Encourages parents to intervene early and re-establish children on the right course. Explores the keys to ethical behavior: honesty, responsibility, respect, fairness, and compassion. All of Kidder's practical advice is based on the latest psychological and neuroscientific research about how kids develop character and learn what's right and wrong. **How to Raise Kind Kids** Thomas Lickona, 2018-04-10 Can you teach a child to be kind? This vital question is taking on a new urgency as our culture grows ever more abrasive and divided. We all want our kids to be kind. But that is not the same as knowing

what to do when you catch your son being unkind A world renowned developmental psychologist Dr Thomas Lickona has led the character education movement in schools for forty years Now he shares with parents the vital tools they need to bring peace and foster cooperation at home Kindness doesn't stand on its own It needs a supporting cast of other essential virtues like courage self control respect and gratitude With concrete examples drawn from the many families Dr Lickona has worked with over the years and clear tips you can act on tonight How to Raise Kind Kids will help you give and get respect hold family meetings to tackle persistent problems discipline in a way that builds character and improve the dynamic of your relationship with your children while putting them on the path to a happier and more fulfilling life

Free-Range Kids, How to Raise Safe, Self-Reliant Children (Without Going Nuts with Worry) Lenore Skenazy, 2010-04-19 FREE RANGE KIDS has become a national movement sparked by the incredible response to Lenore Skenazy's piece about allowing her 9 year old ride the subway alone in NYC Parent groups argued about it bloggers blogged spouses became uncivil with each other and the media jumped all over it A lot of parents today Skenazy says see no difference between letting their kids walk to school and letting them walk through a firing range Any risk is seen as too much risk But if you try to prevent every possible danger or difficult in your child's everyday life that child never gets a chance to grow up We parents have to realize that the greatest risk of all just might be trying to raise a child who never encounters choice or independence

Adult Supervision Required Markella B. Rutherford, 2011-08-03 Adult Supervision Required considers the contradictory ways in which contemporary American culture has imagined individual autonomy for parents and children In many ways today's parents and children have more freedom than ever before There is widespread respect for children's autonomy as distinct individuals and a broad range of parenting styles are flourishing Yet it may also be fair to say that there is an unprecedented fear of children's and parents freedom Dread about Amber Alerts and stranger danger have put an end to the unsupervised outdoor play enjoyed by earlier generations of suburban kids Similarly fear of bad parenting has not only given rise to a cottage industry of advice books for anxious parents but has also granted state agencies greater power to police the family Using popular parenting advice literature as a springboard for a broader sociological analysis of the American family Markella B Rutherford explores how our increasingly psychological conception of the family might be jeopardizing our appreciation for parents and children's public lives and civil liberties
