Ma, Chang Wen Chen, 2010-03-25 The portable device and mobile phone market has witnessed rapid growth in the last few years with the emergence of several revolutionary products such as mobile TV converging iPhone and digital cameras that combine music phone and video functionalities into one device The proliferation of this market has further benefited from the competition in software and applications for smart phones such as Google's Android operating system and Apple's iPhone App Store stimulating tens of thousands of mobile applications that are made available by individual and enterprise developers Whereas the mobile device has become ubiquitous in people's daily life not only as a cellular phone but also as a media player a mobile computing device and a personal assistant it is particularly important to address challenges timely in applying advanced pattern recognition signal information and multimedia processing techniques and new emerging networking technologies to such mobile systems The primary objective of this book is to foster interdisciplinary discussions and research in mobile multimedia processing techniques applications and systems as well as to provide stimulus to researchers on pushing the frontier of emerging new technologies and applications One attempt on such discussions was the organization of the First International Workshop of Mobile Multimedia Processing WMMP 2008 held in Tampa Florida USA on December 7 2008 About 30 papers were submitted from 10 countries across the USA Asia and Europe      **Computer Buyer's Guide and Handbook**, 2001-07      *PC Mag*, 2003-11-25 PCMag.com is a leading authority on technology delivering Labs based independent reviews of the latest products and services Our expert industry analysis and practical solutions help you make better buying decisions and get more from technology      [PC Mag](#), 2003-08-05 PCMag.com is a leading authority on technology delivering Labs based independent reviews of the latest products and services Our expert industry analysis and practical solutions help you make better buying decisions and get more from technology      **Image and Video Retrieval** Wee-Kheng Leow, Michael S. Lew, Tat-Seng Chua, Wei-Ying Ma, Lekha Chaisorn, Erwin M. Bakker, 2005-07-14 It was our great pleasure to host the 4th International Conference on Image and Video Retrieval CIVR at the National University of Singapore on 20-22 July 2005 CIVR aims to provide an international forum for the discussion of research challenges and exchange of ideas among researchers and practitioners in image video retrieval technologies It addresses innovative research in the broad field of image and video retrieval A unique feature of this conference is the high level of participation by researchers from both academia and industry Another unique feature of CIVR

this year was in its format it offered both the traditional oral presentation sessions as well as the short presentation cum poster sessions. The latter provided an informal alternative forum for animated discussions and exchanges of ideas among the participants. We are pleased to note that interest in CIVR has grown over the years. The number of submissions has steadily increased from 82 in 2002 to 119 in 2003 and 125 in 2004. This year we received 128 submissions from the international communities with 81 (63.3%) from Asia and Australia, 25 (19.5%) from Europe and 22 (17.2%) from North America. After a rigorous review process, 20 papers were accepted for oral presentations and 42 papers were accepted for poster presentations. In addition to the accepted submitted papers, the program also included 4 invited papers, 1 keynote industrial paper and 4 invited industrial papers. Altogether we offered a diverse and interesting program addressing the current interests and future trends in this area.
