Humber Keels And Keelmen:

Humber Keels and Keelmen Fred Schofield,1988-01-01 Contains genealogical information on the Scholfield family

Inshore Craft Basil Greenhill,Julian Mannering,2013-04-15 This comprehensive reference work describes and illustrates some 200 types of inshore craft that once fished and traded under oar and sail around the coasts of the British Isles The types are arranged by coastal area and each is described in terms of its shape and design fitness for location and purpose build evolution and geographical distribution Details of dimensions rig building materials seamanship and the survival of examples are given where known while hundreds of line drawings and photographs show the vessels in their original forms A team of twelve experts describe all these boat types and in addition there are introductions to the main geographic areas outlining the physical environments fisheries and other uses of the sea that have influenced boat design maps of all the areas show ports and physical features At the beginning of the last century sail and oar dominated fisheries and local trade one hundred years later those craft have all but vanished This book brings alive for maritime historians and enthusiasts traditional boat sailors modelmakers and all those with an interest in local history the vast array of craft that were once such a significant feature of our inshore seas Inshore Craft is a spectacular achievement Wooden Boat Magazine **Craft of the Inland Waterways** Anthony Burton,2023-08-17 The book traces the history of the various craft that have been used for transport on Britain s rivers and canals from the earliest times to the present day The first section deals with the long history of the development of river craft from prehistoric log boats to the whole range of sailing barges such as the Humber keel and the Thames barge By the middle of the 18th century canal construction brought in a new generation of craft not just the familiar narrow boats but the wide boats such as the Leeds Liverpool short boats maintenance craft and even passenger boats Steam power was introduced in the 19th century for a variety of crafts from tugs to pleasure steamers while the 20th century brought in the diesel motors for boats and barges of all kinds Today there is still some commercial traffic but an ever increasing demand for boats for pleasure Much of this story is told in terms of preserved craft and is also based on the author s own experience aboard many of these craft whether crewing a Thames barge or working in the engine room of a Clyde puffer

Working-Class Community in the Age of Affluence Stefan Ramsden,2017-02-24 It has appeared to many commentators that the most fundamental change in what it is meant to be working class in twentieth century Britain came not as a result of war or of want but of prosperity Social investigators documented how the relative affluence of the 1950s and 1960s improved the material conditions of life for working class Britons whilst eroding their commitment to the shared life of traditional communities Utilising an oral history case study of sociability and identity in the Yorkshire town of Beverley between the end of the Second World War and the election of Margaret Thatcher s government Working Class Community in the Age of Affluence challenges this influential narrative An introductory essay outlines how sociologists and historians understood the complex social cultural and economic changes of the post war decades through the prism of affluence and

traces how these changes came to be seen as deleterious to the traditional working class community The book then proceeds thematically exploring change across areas of social life including family neighbourhood workplace and associational life This book represents the first sustained historical analysis of change and continuity in working class community living during the age of affluence It suggests not only that older social practices persisted but also that new patterns of sociability could strengthen as much as undermine community Ultimately Working Class Community in the Age of Affluence asks us to rethink assumptions about the decline of local solidarities in this pivotal period and to recognise community as a key feature of working class life across the twentieth century

The Mariner's Mirror Leonard George Carr Laughton, Roger Charles Anderson, William Gordon Perrin, 1997

The East Yorkshire Historian, 2000

A Dictionary of the World's Watercraft, 2001 For nearly all of human history the coasts and oceans and rivers and lakes have offered paths for exploration settings for warfare routes for commerce and colonialism and of course sources for food And for all these activities an incredible variety of indigenous watercraft have been fashioned by sailors and fishermen and shipwrights Aak to Zumbra surveys them all and contains descriptions of form and function means of propulsion crew size particular design features as well as notes on construction methods and materials There are thousands of cross references starred for easy reference with vernacular and specialised terms Also included are little known rare and extinct types notes on cultural traditions along with a reading list and a geographical index
