Humor Us! Alyce M. McKenzie, Owen Hanley Lynch, 2023-06-06

Homiletics textbooks often discourage the use of humor in preaching regarding it as trivializing or distracting The result is that many preachers have failed to understand humor's positive power demoting it to the opening joke to get a guaranteed guffaw to warm up the crowd *Humor Us* the second volume in the *Preaching and* series is a collaborative effort by homiletician Alyce M McKenzie and humor scholar Owen Hanley Lynch that promotes humor a force capable of great good to its rightful place in the pulpit Establishing humor as a divine gift *Humor Us* opens to preachers the world of humor studies with its positive portrayal of humor's usefulness to speak truth to power unite people in their common humanity and strengthen them to cope and survive in tough times *Humor Us* helps preachers understand how humor works and shows them in very practical and specific ways how preachers can put it to work in their sermons It combines the wealth of knowledge of two highly regarded scholars practitioners to show how humor can become a potent tool for sharing the good news in sermons McKenzie and Lynch prove that humor when applied thoughtfully can foster compassion and a sense of common humanity help challenge an unjust status quo and invite listeners into a shared experience of the presence of God

American Publishers' Circular and Literary Gazette, 1858

The Dubbing Translation of Humorous Audiovisual Texts Pietro Luigi Iaia, 2015-09-04 This book provides a theoretical and practical framework for researchers and practitioners who focus on the construction interpretation and retextualisation of audiovisual texts It defines translation as a communicative and interpretative process with translators seen as cross cultural mediators who make the denotative semantic and connotative pragmatic dimensions of source scripts accessible to target receivers prompting equivalent perlocutionary effects while still respecting the original illocutionary force While existing research on audiovisual translation generally adopts a product based perspective examining the lexico semantic and syntactic features of source and target versions this book proposes an Interactive Model in order to explore what happens in the translators minds as well as the influence of the interaction between the linguistic and extralinguistic dimensions in the construction and interpretation of audiovisual texts The application of this Model to the analysis of a corpus of humorous films TV series and video games foregrounds the integration between the analysis of the source text features and the knowledge of the target linguacultural backgrounds in the creation of pragmlinguistic equivalent scripts At the same time this book also provides valuable insights into the audience's reception of these translations by submitting close ended and open ended questionnaires to subjects representing empirical receivers thus helping to evaluate the degree of linguistic and functional equivalence of target versions
