To reduce the risk of electrical shock, install this light kit only on Hunter ceiling fan models with removable switch housings.

WARNING

- To avoid possible electrical shock, before installing light fixtures, disconnect power by turning off the circuit breakers both to the outlet box and to its associated wall switch location. If you cannot lock the circuit breakers in the off position, securely fasten a prominent warning device, such as a tag, to the service panel.

Connect house wiring to the fan before attaching the light fixture to the fan.

All wiring must be in accordance with national and local electrical codes and ANSI/NFPA 70. If you are unfamiliar with wiring, you should use a qualified electrician.

FIGURE 1

4. Locate and carefully remove the two capacitors from the switch housing.
5. You have now disconnected the wiring harness and its components from the switch housing and are ready to install them into the modular accessory light kit.

STEP 1: REMOVING WIRING HARNESS

Before you can install the modular accessory light kit, you must remove the wiring harness and its components from the modular switch housing on the fans listed above. You must then install the wiring harness into the modular accessory light kit.

NOTE: Refer to Figure 1 for the steps listed below.

1. Locate the reversing switch and carefully remove the two screws holding the reversing switch to the switch housing. The reversing switch can now be removed from the switch housing.
2. Remove the patented breakaway connector from the fan pull chain.
3. Carefully loosen the bellmouth nut from the fan pull chain and remove the fan pull chain switch from the switch housing.

STEP 2: INSTALLING WIRING HARNESS

NOTE: Refer to Figure 1 for steps listed below.

1. Locate the two wires in the lower switch housing labeled "Connect Light Here" or "For Light Use". One will be white, the other black with a white stripe. Unscrew the wire connectors counterclockwise to expose the bare metal leads.
2. Locate the white wire and the black wire coming from the light fixture.

Connect the black wire from the light fixture to the black wire with a white stripe from the lower switch housing.

Connect the white wire from the light fixture to the white wire from the lower switch housing.

To fasten the wires, twist the two bare leads together. Place a wire connector over the intertwined length of wire and twist clockwise until tight.
