- You will be given a copy of the Periodic Table in the exam so make sure you use it!

Revision tips

1. It can be difficult to get all the available marks in Chemistry because:
 - explanations need to be phrased precisely, using the vocabulary you have been taught.
 - a lot of questions require you to apply your understanding of key ideas to an unfamiliar problem.
2. Read through relevant notes and sections of your revision guide, text book and notes, and make sure you understand the explanations given.
 - Summarising is fine, but don't change the language used in the notes/revision guide.
 - Make a list of the parts that you don't understand and ask for help with them.
3. Try completing old exam paper questions (available at [Edexcel IGCSE Chemistry past papers](#) or in the IGCSE folder in the SS Chemistry area of Sharepoint). Mark schemes are available online or on Sharepoint.

Do your corrections and try some more similar questions until you feel confident that you can answer them under exam conditions.
4. Learn to recognize the different **types** of chemical reaction, e.g.:
 - a) precipitation
 - b) neutralisation
 - c) oxidation
 - d) reduction
 - e) redox
 - f) displacement
 - g) decomposition
 - h) thermal decomposition
 - i) electrolysis
