General Catalogue of Printed Books to 1955 British Museum. Dept. of Printed Books,1967 **Winning Wars Before They Emerge** Torsti Sirén,Torsti Sir N.,2013-01-01 To avoid preparing to wage battles against our opponents in future wars we should proactively and continuously influence the narrative identity structures of our potential opponents by using Strategic Communications StratCom This book argues that nations and societies of tolerance and pluralism the so called wonderful societies should utilize StratCom to seduce their enemies opponents and potential opponents not only to behave in more tolerant ways but above all to internalize peace tolerance and pluralism as essential values and guiding mental institutions of their identity structures **Winning Wars Before They Emerge** will be of interest to students lecturers and researchers of international relations and world politics peace researchers and information operations practitioners as well as military personnel War and the art of war are issue areas that have been widely dealt with in numerous books and widely taught in various universities and defense colleges universities but not from the perspective offered in this book

International Aviation Law Attila Sipos,2024-09-02 This book opens the most adventurous and passionate Chapter in the history of Humankind Aviation Aviation in our modern world is one of the latest magnificent enterprises a kind of emblematic window through which we can cast a glance into the future Into the future since the aviation industry already applies technical organisational and administrative solutions which in other walks of life will be utilised only after years or decades The airplanes have become so swift and safe that flying has turned from a reckless adventure into public transport Next to cities airports have been built from where every minute airplanes take off and depart to all the four corners of the world The once so enormous and mysterious terrestrial globe has shrunk to appear to be a tiny ball all points of which can be reached in a couple of hours This book introduces in its entirety the regulatory regime of aviation as the safest form of transport in our age which integrates exceptional spiritual and practical achievements technical innovation as well as creates significant values Air transport is one of the most regulated industry The comprehension of its context requires the knowledge of the rules of international air law Air law is a qualitatively separated part of international law with peculiar structure which has evolved by drawing on the centuries old traditions of maritime law and has developed to be one of the youngest and the most up to date branch of jurisprudence Air law is an autonomous branch of law Its uniqueness derives from the extraordinarily rigorous requirements occasionally written by blood of aviation safety and aviation security The author guides the reader into

this barely familiar secluded world of aviation via 31 illustrations and the presentation of 100 legal cases The volume relies on the several decades professional experience of the author Its objectives consist in the familiarisation of the public interested in aviation with this exceptionally intriguing area of international law in the support of the everyday work of experts in the area of aviation furthermore in the enhancement of the knowledge of theoretical and practical lawyers and broadening their horizons In this book the two most important founding treaties of international air law are introduced the Chicago Convention on International Civil Aviation 1944 and the Montreal Convention on the Unification of Certain Rules for International Carriage by Air 1999 furthermore mention is made of all significant aviation law treaties The Chicago and the Montreal Conventions are timeless sources of law since their meritorious amendment barely ensued therefore the relations and the legal solutions elucidated in the book are going to serve the reader for decades

Music Therapy in Geriatrics, volume II Suzanne B. Hanser, Concetta Maria Tomaino, Amy Clements-Cortes, Melissa Mercadal-Brotons, 2024-03-07 This Research Topic is the second volume of Music Therapy in Geriatrics Please find the first Edition here Demographic projections estimate that by 2050 the number of people aged 65 and older in the world will soar to 1.5 billion approximately one third of the total population Medical and technological advances have certainly contributed to enhanced longevity However with advanced age there is a concomitant elevation in the prevalence of chronic diseases The Office of Disease Prevention and Health Promotion in the U.S. found that in 2012 60% of older adults reported at least two of the following conditions Cancer heart disease emphysema or chronic bronchitis stroke diabetes mellitus and Alzheimer's disease These diagnoses carry the extensive costs and burdens of serious illnesses and also mean that family caregivers of loved ones with these conditions experience significant challenges placing them at extreme risk for a variety of stress related illnesses and afflictions and accounting for high rates of morbidity and mortality

Medical evacuation in emergencies World Health Organization, 2025-07-04 In times of crisis whether due to disasters armed conflicts or other health emergencies the timely and well coordinated evacuation of patients is a critical component of emergency response Past emergencies have demonstrated the urgent need for standardized approaches to both pre hospital support for medical evacuation medevac and medevac operations themselves The absence of clear protocols coupled with delays miscommunication and inadequate care during transit can severely impact patient outcomes Establishing standardized procedures ensures that medical evacuations are conducted safely efficiently and in coordination with the broader health care and emergency response system This guidance aims to provide a comprehensive framework for the safe and context adapted coordination clinical care operations support and logistics relevant to governments national authorities including ministries of health civil protection and civil defence national and international Emergency Medical Teams EMTs nongovernmental organizations NGOs Emergency Medical Services EMS and other key stakeholders operating in the medevac space or wishing to build this kind of capacity It defines minimum standards and recommendations for the development and classification of respective specialized care teams
