COMPARING THE 2 TYPES OF IELTS TEST

ieltsadvantage.com

Academic is for people hoping to go to university or get certain types of jobs, such as medical professionals.

Listening and Speaking are exactly the same for both Academic and GT.

Reading contains the same types of questions for both Academic and GT, but the reading texts are different.

Academic Writing consists of Task 1 and Task 2. Task 1 asks you to write a report on a graph, chart, process or map.

GT is for people hoping to migrate to an English-speaking country.

You should prepare for Speaking and Listening in the same way.

Academic texts are on academic topics and GT texts are relevant to everyday life in an English-speaking country.

Task 1 GT asks you to write a letter to an English-speaking person.

Task 2 is the same for Academic and GT.

Hurst-Harosh, Nancy C. Kula, Jochen Zeller, 2005-08-19 This volume brings together leading scholars from Africa Europe the Americas and beyond to provide a detailed account of the languages of the Bantu family which cover an area from Cameroon and Kenya in the north to South Africa in the south. The Bantu family is part of the Niger Congo phylum and one of the world's biggest language groups comprising around 500 languages. The family includes major languages with large numbers of speakers such as Zulu Kinyarwanda and Swahili the most widely spoken and taught African language as well as many community languages and several endangered languages. Bantu languages feature prominently in the complex and multilingual language ecologies that are characteristic of the linguistic situation in much of Africa and they provide rich evidence for the study of theoretical and comparative linguistics language contact and language change. They play an important role in education commerce culture and artistic expression in the media and public discourse in governance and social justice and are central to the future of the continent and the well-being of its communities. The first part of The Oxford

Guide to the Bantu Languages provides background and context with chapters exploring the history of research in the field language and prehistory in Bantu speaking Africa and typology and variation Chapters in the second part offer broad comparative overviews of Bantu phonology morphology syntax semantics and pragmatics socio and applied linguistics before Parts III VII cover more specific topics in Bantu linguistics across a variety of subfields ranging from structural issues such as the augment and melodic tone to historical and sociolinguistic topics such as Bantu languages in the diaspora and language policy and standardization The chapters in the final part offer individual structural overviews of a range of languages from across the Bantu speaking area The book will be an essential resource for students and researchers specializing in the Bantu languages and for typologists and comparative linguists more broadly
