## **Leap Schedule 2014 5th Grade:**

**Shuttered Schools** Ebony M. Duncan-Shippy, 2019-04-01 Since the late 1990s mass school closures have reshaped urban education across the United States Popular media coverage and research reports link this resurgence of school closures in major cities like Chicago and Philadelphia to charter school expansion municipal budget deficits and racial segregation However this phenomenon is largely overlooked in contemporary education scholarship Shuttered Schools Race Community and School Closures in American Cities Information Age Publishing is an interdisciplinary volume that integrates multiple perspectives to study the complex practice of school closure an issue that transcends education Academics practitioners activists and policymakers will recognize the far reaching implications of these decisions for school communities Shuttered Schools features rigorous new studies of school closures in cities across the United States This research contextualizes contemporary school closures and accounts for their disproportionate impact on African American students With topics ranging from gentrification and redevelopment to student experiences with school loss research presented in this text incorporates various methods e g case studies interviews regression techniques and textual analysis to evaluate the intended and unintended consequences of closure for students families and communities This work demonstrates that shifts in the social economic and political contexts of education inform closure practice in meaningful ways The impacts of shuttering schools are neither colorblind nor class neutral but indeed interact with social contexts in ways that reify existing social inequalities in education

**Last Bell** Carl Bistany, Stephanie Gruner Buckley, 2015-11-05 In the mid nineties the Alfred Glickman School was just another failing school in one of America s most violent cities Then SABIS a private for profit education provider took over Twenty years later the school is a six time silver medalist in U S News World Report s annual America s Best High Schools listing and every single graduate of the school has been offered a college place With success of this magnitude you would think that for profit managed charter schools like SABIS would be in high demand On the contrary they are fought at every turn Why is the idea of employing for profit companies to help rescue failing public schools treated with fear and hostility Stranger still why does a nation built on free enterprise refuse to embrace a free market strategy when so many students and schools would clearly benefit and with so much at stake Last Bell is a book about politics money and power It examines the charge that for profits running charter schools are in it for the money not the kids and reveals the real motives of those spreading these ideas and why they fight private sector involvement in public schools Last Bell is a reasonable voice in a polarized debate It does not call for an end to public schools but rather imagines a future in which private companies help create a competitive market for public education to boost performance turn derelict schools into centers of excellence and give parents even in the worst neighborhoods real choice and their children a future
