Our Lives in Their Portfolios Brett Christophers, 2023-04-25 Banks have taken a backseat since the global financial crisis over a decade ago Today our new financial masters are asset managers like Blackstone and BlackRock And they don't just own financial assets The roads we drive on the pipes that supply our drinking water the farmland that provides our food energy systems for electricity and heat hospitals schools and even the homes in which many of us live all now swell asset managers bulging investment portfolios As the owners of more and more of the basic building blocks of everyday life asset managers shape the lives of each and every one of us in profound and disturbing ways In this eye opening follow up to Rentier Capitalism Brett Christophers peels back the veil on asset manager society Asset managers he shows are unlike traditional owners of housing and other essential infrastructure Buying and selling these life supporting assets at a dizzying pace the crux of their business model is not long

term investment and careful custodianship but making quick profits for themselves and the investors that back them In asset manager society the natural and built environments that sustain us become one more vehicle for siphoning money from the many to the few

External Mission Stephen Ellis, 2013-10-01 Nelson Mandela s release from prison in February 1990 was one of the most memorable moments of recent decades It came a few days after the removal of the ban on the African National Congress founded a century ago and outlawed in 1960 it had transferred its headquarters abroad and opened what it termed an External Mission For the thirty years following its banning the ANC had fought relentlessly against the apartheid state Finally voted into office in 1994 the ANC today regards its armed struggle as the central plank of its legitimacy External Mission is the first study of the ANC s period in exile based on a full range of sources in southern Africa and Europe These include the ANC s own archives and also those of the Stasi the East German ministry that trained the ANC s security personnel It reveals that the decision to create the Umkhonto we Sizwe Spear of the Nation guerrilla army which later became the ANC s armed wing as made not by the ANC but by its allies in the South African Communist Party after negotiations with Chinese leader Mao Zedong In this impressive work Ellis shows that many of the strategic decisions made and many of the political issues that arose during the course of that protracted armed struggle had a lasting effect on South Africa shaping its society even up to the present day

FDR and the Jews Richard Breitman, Allan J. Lichtman, 2013-03-19 A contentious debate lingers over whether Franklin Delano Roosevelt turned his back on the Jews of Hitler s Europe FDR and the Jews reveals a concerned leader whose efforts on behalf of Jews were far greater than those of any other world figure but whose moral leadership was tempered by the political realities of depression and war

On Bicycles Evan Friss, 2019-05-07 Subways and yellow taxis may be the icons of New York transportation but it is the bicycle that has the longest claim to New

York's streets two hundred years and counting. Never has it taken to the streets without controversy. 1819 was the year of the city's first bicycle and also its first bicycle ban. Debates around the bicycle's place in city life have been so persistent not just because of its many uses: recreation, sport, transportation, business, but because of changing conceptions of who cyclists are. In *On Bicycles*, Evan Friss traces the colorful and fraught history of cycling in New York City. He uncovers the bicycle's place in the city over time, showing how it has served as a mirror of the city's changing social, economic, infrastructural, and cultural politics since it first appeared. It has been central as when horse-drawn carriages shared the road with bicycle lanes in the 1890s; peripheral when Robert Moses's car-centric vision made room for bicycles only as recreation and aggressively marginalized when Ed Koch's battle against bike messengers culminated in the short-lived 1987 Midtown Bike Ban. *On Bicycles* illuminates how the city as we know it today, veined with over a thousand miles of bicycle lanes, reflects a fitful journey powered and opposed by New York City's people and its politics. 'The better class' of Indians A.

Wainwright, 2017-03-01 This is the first book-length study to focus primarily on the role of class in the encounter between South Asians and British institutions in the United Kingdom at the height of British imperialism. In a departure from previous scholarship on the South Asian presence in Britain, *The better class of Indians* emphasizes the importance of class as the register through which British polite society interpreted other social distinctions such as race, gender, and religion. Drawing mainly on unpublished material from the India Office Records, the National Archives, and private collections of charitable organizations, this book examines not only the attitudes of British officials towards South Asians in their midst but also the actual application of these attitudes in decisions pertaining to them. This fascinating book will be of particular interest to scholars and general readers of imperialism, immigration, as well as British and Indian social history. **Arms Races in**

International Politics Thomas Mahnken, Joseph Maiolo, David Stevenson, 2016-01-14 This volume provides the first comprehensive history of the arms racing phenomenon in modern international politics, drawing both on theoretical approaches and on the latest historical research. Written by an international team of specialists, it is divided into four sections: before 1914, the inter-war years, the Cold War, and extra-European and post-Cold War arms races. Twelve case studies examine land and naval armaments before the First World War, air, land, and naval competition during the 1920s and 1930s, and nuclear as well as conventional weapons since 1945. Armaments policies are placed within the context of technological development, international politics, and diplomacy, and social politics and economics. An extended general introduction and conclusion, and introductions to each section, provide coherence between the specialized chapters and draw out wider implications for policymakers and for political scientists. *Arms Races in International Politics* addresses two key questions: what causes arms races, and what is the connection between arms races and the outbreak of wars. **Scotland's Choices**

Iain McLean, 2014-05-30 *Scotland's Choices*, now fully revised for the critical last few months before the referendum, explains the choice that Scotland will have to make in September 2014. The authors clearly explain the issues and how each of the

options would be put into place *The Rich Don't Always Win* Sam Pizzigati, 2012-11-27 The Occupy Wall Street protests have captured America's political imagination Polls show that two thirds of the nation now believe that America's enormous wealth ought to be distributed more evenly However almost as many Americans well over half feel the protests will ultimately have little impact on inequality in America What explains this disconnect Most Americans have resigned themselves to believing that the rich simply always get their way Except they don't A century ago the United States hosted a super rich even more domineering than ours today Yet fifty years later that super rich had almost entirely disappeared Their majestic mansions and estates had become museums and college campuses and America had become a vibrant mass middle class nation the first and finest the world had ever seen Americans today ought to be taking no small inspiration from this stunning change After all if our forbears successfully beat back grand fortune why can't we But this transformation is inspiring virtually no one Why Because the story behind it has remained almost totally unknown until now This lively popular history will speak directly to the political hopelessness so many Americans feel By tracing how average Americans took down plutocracy over the first half of the 20th Century and how plutocracy came back *The Rich Don't Always Win* will outfit Occupy Wall Street America with a deeper understanding of what we need to do to get the United States back on track to the American dream **Donkey Work** Patrick Andelic, 2024-11-13 What happened to the Democratic Party after the 1960s In many political histories the McGovern defeat of 1972 announced the party's decline and the conservative movement's ascent What the conventional narrative neglects Patrick Andelic submits is the role of Congress in the party's and the nation's political fortunes In *Donkey Work* Andelic looks at Congress from 1974 to 1994 as the Democratic Party's stronghold and explores how this twenty year tenure boosted and undermined the party's response to the conservative challenge If post 1960s America belongs to the conservative movement Andelic asks how do we account for the failure of so much of the conservative agenda especially the shrinking of the federal government Examining the Democratic Party's unusual durability in Congress after 1974 *Donkey Work* disrupts the narrative of inexorable liberal decline since the 1970s and reveals the ways in which liberalism and conservatism actually developed in tandem The book traces the evolution of ideologies within the Democratic Party particularly the emergence of neoliberalism suggesting that this political philosophy was as much an anticipation of America's right turn as a reaction to it as factions vied for control of the party Congress itself both strengthened and weakened liberal resistance to the conservative movement By putting the focus on Congress and legislative politics in contrast to the presidential synthesis that dominates US political history Andelic's book offers a new deeply informed perspective on two turbulent decades of American politics a perspective that alters and expands our understanding of how we arrived at our present political moment *Museum Architecture* Suzanne MacLeod, 2013-04-12 Recent decades have witnessed an explosion of museum building around the world and the subsequent publication of multiple texts dedicated to the subject *Museum Architecture* A new biography focuses on the stories we tell of museum buildings in order to explore

the nature of museum architecture and the problems of architectural history when applied to the museum and gallery Starting from a discussion of the key issues in contemporary museum design the book explores the role of architectural history in the prioritisation of specific stories of museum building and museum architects and the exclusion of other actors from the history of museum making These omissions have contemporary relevance and impact directly on the ways in which the physical structures of museums are shaped Theoretically the book places a particular emphasis on the work of Pierre Bourdieu and Henri Lefebvre in order to establish an understanding of buildings as social relations the outcome of complex human interactions and relationships The book utilises a micro history an in depth case study of the National Gallery of the North the Walker Art Gallery in Liverpool to expose the myriad ways in which museum architecture is made Coupled with this detailed exploration is an emphasis on contemporary museum design which utilises the understanding of the social realities of museum making to explore ideas for a socially sustainable museum architecture fit for the twenty first century

Making of the Tunisian Revolution Nouri Gana, 2013-09-07 From late 2010 to the present day the Arab world has been shot through with insurrection and revolt As a result Tunisia is now seen as the unlikely birth place and exemplar of the process of democratisation long overdue in the Arab world Mixing political historical economic social and cultural analyses and approaches these essays reflect on the local regional and transnational dynamics together with the long and short term factors that when combined set in motion the Tunisian revolution and the Arab uprisings Above all the book maps the intertwined genealogies of cultural dissent that have contributed to the mobilisation of protesters and to the sustenance of protests between 17 December 2010 and 14 January 2011 and beyond [An African American Dilemma](#) Zoë Burkholder, 2021 Presenting a revealing historical perspective on today's charged schooling choices [An African American Dilemma](#) illuminates the tensions between school integration and separation that have shaped the long history of black struggles for equal education and civil rights in the North
