Memorandum November 2011business Studies:

Corporations, Global Governance, and Post-conflict Reconstruction Peter Davis, 2013 This book looks at the impact multinational companies have in post conflict environments the role they have and how they are governed drawing on detailed fieldwork in Azerbaijan Bosnia and Rwanda Maritime Security and Indonesia Senia Febrica, 2017-03-27

Indonesia is the largest archipelago state in the world comprising 17 480 islands with a maritime territory measuring close to 6 million square kilometres It is located between the two key shipping routes of the Pacific and Indian Ocean Indonesia s cooperation in maritime security initiatives is vitally important because half of the world s trading goods and oil pass through Indonesian waters including the Straits of Malacca the Strait of Sunda and the Strait of Lombok This book analyses Indonesia s participation in international maritime security cooperation Using Indonesia as a case study the book adopts mixed methods to assess emerging power cooperation and non cooperation drawing from various International Relations theories and the bureaucratic politics approach It addresses not only the topic of Indonesia s cooperation but also engages in debates across the International Relations political science and policy studies disciplines regarding state cooperation Based on extensive primary Indonesian language sources and original interviews the author offers a conceptual discussion on the reasons underlying emerging middle power participation or non participation in cooperation agreements The analysis offers a fresh perspective on the growing problems of maritime terrorism and sea robbery and how an emerging power deals with these threats at unilateral bilateral regional and multilateral levels The book fills a significant gap in literature on Indonesian foreign policy making in the post 1998 era It provides the first in depth study of Indonesia s decision making process in the area of maritime security and will thus be of interest to researchers in the field of comparative politics international relations security policy maritime cooperation port and shipping businesses and Southeast Asian politics and society **The EU emissions trading system** Great Britain: Parliament: House of Commons: Energy and Climate Change Committee, 2012-01-26 The Government s decision to set a unilateral Carbon Price Floor could have a devastating effect on UK industry and will artificially raise electricity prices for consumers while having no overall impact on emissions Unless the price of carbon is increased at an EU wide level taking action on our own will have no overall effect on emissions other than to out source them Energy generators and heavy industry could be subject to an exorbitant top up tax of up to 25 per tonne of CO₂ under current plans because the price of carbon in the rest of the EU is so low Electricity prices will increase as the price floor keeps the cost of carbon higher than in other countries effectively subsidising other Member States at the expense of the UK consumer and resulting in carbon leakage DECC expects there to be as much as 10 GW of interconnection with other countries by 2020 some 10% of installed capacity This makes electricity generation more susceptible to leakage than other sectors such as goods manufacture which may be restricted by the difficulties of relocating production The report recommends that the overall EU ETS cap should be toughened to deliver a 30% emissions reduction target by 2020 the

annual reduction rate for the EU ETS cap must also be adjusted to set out a long term emissions trajectory that will deliver a 60 80% reduction in greenhouse gas emissions by 2050 the EU should set aside a significant number of EU Allowances and Members States should support this move as a necessary short term fix

The "Dematerialized" Insurance Pierpaolo Marano,Ioannis Rokas,Peter Kochenburger,2016-08-03 This book adopts an international perspective to examine how the online sale of insurance challenges the insurance regulation and the insurance contract with a focus on insurance sales consumer protection cyber risks and privacy as well as dispute resolution Today insurers policyholders intermediaries and regulators interact in an increasingly online world with profound implications for what has up to now been a traditionally operating industry While the growing threats to consumer and business data from cyber attacks constitute major sources of risk for insurers at the same time cyber insurance has become the fastest growing commercial insurance product in many jurisdictions Scholars and practitioners from Europe the United States and Asia review these topics from the viewpoints of insurers policyholders and insurance intermediaries In some cases existing insurance regulations appear readily adaptable to the online world such as prohibitions on deceptive marketing of insurance products and unfair commercial practices which can be applied to advertising through social media such as Facebook and Twitter as well as to traditional written material In other areas current regulatory and business practices are proving to be inadequate to the task and new ones are emerging For example the insurance industry and insurance supervisors are exploring how to review utilize profit from and regulate the explosive growth of data mining and predictive analytics big data which threaten long standing privacy protection and insurance risk classification laws This book s ambitious international scope matches its topics The online insurance market is cross territorial and cross jurisdictional with insurers often operating internationally and as part of larger financial services holding companies The authors exploration of these issues from the vantage points of some of the world s largest insurance markets the U S Europe and Japan provides a comparative framework which is necessary for the understanding of online insurance

Rights, Not Interests James A. Gross, 2017-11-15 This provocative book by the leading historian of the National Labor Relations Board offers a reexamination of the NLRB and the National Labor Relations Act NLRA by applying internationally accepted human rights principles as standards for judgment These new standards challenge every orthodoxy in U S labor law and labor relations James A Gross argues that the NLRA was and remains at its core a workers rights statute Gross shows how value clashes and choices between those who interpret the NLRA as a workers rights statute and those who contend that the NLRA seeks only a balance between the economic interests of labor and management have been major influences in the evolution of the board and the law Gross contends contrary to many who would write its obituary that the NLRA is not dead Instead he concludes with a call for visionary thinking which would include for example considering the U S Constitution as a source of workers rights Rights Not Interests will appeal to labor activists and those who are trying to reform our labor laws as well as scholars and students of management human resources and industrial relations

International Business Oded Shenkar, Yadong Luo, Tailan Chi, 2014-08-01 The third edition of International Business offers an action focused practical approach to the topic helping students understand the global business environment and its repercussions for executives The book provides thorough coverage of the field delving into fundamental concepts and theory the cultural political and economic environment international business strategies and even functional management areas More comprehensive than competing books International Business includes Strengthened expanded global cases examples and industry and country mini cases that give students practical insight into the ways companies actually behave within a competitive global environment Updated coverage of key trends that impact how international business functions including the drivers of globalization e commerce and the impact of the Internet and international entrepreneurship New material on technology issues the impact of the financial crisis and problems in the EU Expanded discussion of the skills and strategies students need to succeed in today s international business environment including dynamic capabilities foreign direct investment and market entry strategies Also featuring a companion website with a test bank Powerpoint slides and instructor s manual this book is ideal for undergraduate and graduate students and instructors of any international business course

Insider Trading in Developing Jurisdictions Wunmi Bewaji, 2012 The book examines the regulation of insider dealing in the developed jurisdictions using three of the G7 countries as guides with the aim of knowing how they have regulated insider trading and what lessons can be learnt from their failures and achievements It looks at regulatory regimes in the US the UK

and Japan in order to consider whether these regimes can be successfully transplanted to developing countries In order to explore insider dealing in the developing world the book focuses on Nigeria Africa s most populous nation and second largest economy This book examines in theoretical and empirical terms the law on insider trading away from the dogmatic approach of Western literature by presenting the subject from the prism of a developing jurisdiction in post colonial Africa with a divergent cultural historical social political and economic background The author analyses what shape insider dealing takes in Nigeria a predominantly illiterate society and considers the groups involved The books also explores how the concept of insider dealing regulation is understood amongst parties integral to its administration and enforcement such as lawyers judges stockbrokers and ordinary investors The legislation governing insider dealing regulation in Nigeria is critically examined to expose its strengths and weaknesses and to see how foreign provisions and legislation have been incorporated The book uses Nigerian experiences to consider its implications for other developing nations arguing that regulatory regimes need to take into account the specific social political historical and economic factors of a particular locale rather than importing regulations wholesale from developed jurisdictions

The Changing Face of American Banking Ranajoy Ray Chaudhuri, 2016-10-15 With almost 6 300 commercial banks significantly more than in any other country the world of US banking is unique fascinating and always in flux Two principal pieces of legislation have shaped the banking structure in this country The McFadden Act of 1927 which prohibited banks from branching into other states and The Glass Steagall Act of 1933 which separated commercial and investment banking activities The repeal of the Glass Steagall Act in 1999 was one of the main contributing factors behind the global financial crisis of 2008 This measure resulted in the passage of the Dodd Frank Wall Street Reform and Consumer Protection Act of 2010 which once again prohibited commercial banks from making certain types of speculative investments The Changing Face of American Banking analyzes the impact of both these acts as well as that of their subsequent repeal in depth examining the real effects of government regulations on the US commercial banking sector Ray Chaudhuri pinpoints the evolving nature of US commercial banks and banking regulations and explores their impact on the economy Instead of just focusing on banks and regulations this work considers the correlations and causality between banking performance and economic growth and productivity It also brings the banking literature up to date with the 2008 2009 financial crisis and its aftermath including the passage of the Dodd Frank Act of 2010 and its effect on American banking

The EU and Russia in Their 'Contested Neighbourhood' Laure Delcour, 2016-12-19 The literature on the European Union influence s in its Eastern neighbourhood has tended to focus on EU level policies and prioritize EU related variables This book seeks to overcome this EU centric approach by connecting EU policy transfer to the domestic and regional environment in which it unfolds It looks at the way in which the EU seeks to influence domestic change in the post Soviet countries participating in the European Neighbourhood Policy Eastern Partnership and domestic receptivity to EU policies and templates It seeks to disentangle the various dynamics behind domestic change or lack thereof in Eastern

Partnership countries including EU policy mechanisms domestic elites preferences and strategies regional interdependences and Russia's policies Based upon extensive empirical investigation on EU policies in four countries Armenia Georgia Moldova and Ukraine and in two pivotal policy sectors the book provides systematic and nuanced understanding of complex forces at work in the policy transfer process This text will be of key interest to scholars and students of international relations European studies democratization studies and East European Politics and area studies particularly post Soviet Eurasian studies

ICT for Transport Nikolas Thomopoulos, Moshe Givoni, the late Piet Rietveld, 2015-05-29 Information and Communication Technologies ICT are rapidly evolving and taking centre stage in everyday life in the 21st century alongside the increasing importance and value of information This is particularly evident in the transport sector where

Corporate Peace Mary Martin, 2020-01-23 Ours is an era of big companies multinational brands and global business power but also of seemingly unending conflict Corporate Peace examines how corporations respond to the life and death business of war and peace What happens when they come up against Mexican drug cartels or the Ebola epidemic in Liberia Through the experiences of behemoths such as Fiat Veolia BP and Unilever Mary Martin shows how big business is increasingly critical in building a safer world in the face of failed states health pandemics insurgencies and organised crime Can companies do more than generate profits in the poorest and most fragile parts of the world Should they also shoulder responsibilities neglected by government Martin contends that corporations must move beyond simply doing no harm or upholding human rights They are becoming part of the solution contributing expertise and investment to resolve complex issues of violence authority and law

Corporate Europe David Cronin, 2013-08-12 During the chaos of the eurozone crisis few mainstream commentators have stopped to question the purpose of the European Union itself and whose interests it serves Corporate Europe goes beyond the divisions between nation states focusing instead on the division between the corporate elite and the peoples of Europe David Cronin spent a year investigating the privileged access that big business enjoys in Brussels In this book he reveals how the EU's policies on health climate change armaments and food safety have been tailored to please an unaccountable elite Making extensive use of previously unpublished documents he explores how ideologically blinkered lobbyists have seized on the financial crisis of recent years to entrench the casino capitalism that caused the crisis in the first place What emerges is a powerful exposé of how vested interests in the EU have manipulated opportunities to introduce ideologically driven reforms

International Diplomacy and the Olympic Movement Aaron Beacom, 2012-07-31 This

book explores the relationship between diplomatic discourse and the Olympic Movement charting its continuity and change from an historical perspective Using the recent body of literature on diplomacy it explores the evolution of diplomatic discourse around a number of themes in particular the increasing range of stakeholders engaged in the Olympic bid disability advocacy and the mainstreaming of the Paralympic Games and the evolution of the Olympic boycott The work addresses the increasing engagement of a number of non state actors in particular the IOC and the IPC as indicative of the diffusion of contemporary diplomacy At the same time it identifies the state as continuing in the role of primary actor setting the terms of reference for diplomatic activity beyond the pursuit of its own policy interests Its historical investigation based around a UK case study provides insights into the characteristics of diplomatic discourse relating to the Games and creates the basis for mapping the future trajectory of diplomacy as it relates to the Olympic Movement

Board Member Nomination and Election OECD,2012-09-20 This report addresses the corporate governance framework and company practices that determine the nomination and election of board members It covers some 26 jurisdictions including in depth reviews of four jurisdictions Indonesia Korea the Netherlands and the United States

Reforming Turkish Energy Markets Izak Atiyas,Tamer Cetin,Gurcan Gulen,2012-05-11 Turkey has been reforming its energy markets since the 1980s culminating in two major bills in the early 2000s The country has restructured electricity and natural gas markets establishing an independent regulatory agency EMRA and passed legislation on renewable and nuclear energy With these regulatory reforms Turkey as a candidate country for accession to the European Union EU has aimed to direct the energy markets to a more competitive environment in parallel with EU energy directives This book contains an analysis of regulatory reforms in Turkish energy markets electricity natural gas renewable and nuclear energy the impact of these reforms on country s energy portfolio and role in global energy trade especially between the EU the Caspian Caucasus and Central Asia Finally the book concludes with recommendations for Turkish energy policy The authors are expert scholars who have written extensively on Turkish regulatory reform and energy economics and who have broad knowledge of global energy market dynamics The book will be a unique guide for those concerned with the different areas of the Turkish economy and international audiences interested in energy markets of Turkey and surrounding regions making the book of interest to not only researchers in academia but also industry practitioners regulators and policy makers as well

Crisis of Social Democracy in Europe Michael Keating,2015-04-20 This volume examines the fortunes of social democracy in Western and East Central Europe and the policy challenges it faces By arguing that social democracy is a way of reconciling market capitalism with social inclusion and equality they show that it h

Debates on U.S. Immigration Judith Gans,Elaine M. Replogle,Daniel J. Tichenor,2012-08-17 This issues based reference work available in both print and electronic formats shines a spotlight on immigration policy in the United States The U S is a nation of immigrants Yet while the lofty words enshrined with the Statue of Liberty stand as a source of national pride the rhetoric and politics surrounding immigration policy all too

often have proven far less lofty In reality the apparently open invitation of Lady Liberty seldom has been without restriction Throughout our history impassioned debates about the appropriate scope and nature of such restriction have emerged and mushroomed among politicians among scholars of public policy among the general public In light of the need to keep students researchers and other interested readers informed and up to date on status of U S immigration policy this volume uses introductory essays followed by point counterpoint articles to explore prominent and perennially important debates providing readers with views on multiple sides of this complex issue While there are some brief works looking at debates on immigration as well as some general A to Z encyclopedias we offer more in depth coverage of a much wider range of themes and issues thus providing the only fully comprehensive point counterpoint handbook tackling the issues that political science history and sociology majors are asked to explore and to write about as students and that they will grapple with later as policy makers and citizens Features Benefits The volume is divided into three sections each with its own Section Editor Labor Economic Debates Judith Gans Social Cultural Debates Judith Gans and Political Legal Debates Daniel Tichenor Sections open with a Preface by the Section Editor to introduce the broad theme at hand and provide historical underpinnings Each section holds 12 chapters addressing varied aspects of the broad theme of the section Chapters open with an objective lead in piece or headnote followed by a point article and a counterpoint article All pieces headnote point article counterpoint article are signed For each chapter students are referred to further readings data sources and other resources as a jumping off spot for further research and more in depth exploration Finally volume concludes with a comprehensive index and the electronic version includes search and browse features as well as the ability to link to further readings cited within chapters should they be available to the library in electronic format Financial Justice Larry Kirsch, Robert N. Mayer, 2013-05-09 This provocative and accessible narrative recounts the inside story of how a broad based people s campaign was mobilized and subsequently succeeded in pushing Congress to create a consumer financial regulator with clout What would Congress do if anything to tame Wall Street and the nation s lenders following the financial meltdown of 2008 This book tells the true story of how an alliance of consumer civil rights labor fair lending and other progressive groups emerged to effectively challenge Wall Street and its official protectors and to win substantial new legislative reforms actions that resulted in the Dodd Frank Act and its path breaking Consumer Financial Protection Bureau CFPB Based largely on in depth interviews with the leading activists involved in the campaign Financial Justice The People s Campaign to Stop Lender Abuse taps into the world of contemporary citizen movements to present evidence into the conditions that determine the success and failure of social movement campaigns It goes well beyond general global variables such as effective management to show how the formal and informal rules adopted by a campaign can serve to preclude fragmentation and incoherence
