Mental Health Commission Subcommittee Report:

Kids Caught in the Psychiatric Maelstrom Elizabeth E. Root MSW, MS Ed, 2009-09-23 This book offers a warning that American children are receiving increased chemical treatment from psychiatrists and provides a primer on how to improve the emotional health of kids without drugs Maelstrom is an apt metaphor for the inexorable deterioration many children experience inside the mental health system Kids Caught in the Psychiatric Maelstrom How Pathological Labels and Therapeutic Drugs Hurt Children and Families challenges current treatment practices and addresses the critically important issue of excessive prescribing of psychiatric medications to children This encyclopedic work reveals inside the system information emphasizing the theoretical divide at the root of the controversy over diagnosis and treatment It explains how the 1990s decade of the brain replaced talk therapy with biochemical treatments leading to the hegemony of the pharmaceutical industry and subsequently the massive drugging of children Author Elizabeth E Root details common diagnoses and treatments explaining up to date brain research with some surprising interpretations and noting dangerous national precedents to mental screening Finally she illuminates pathways toward solutions and healthier families sharing nonpsychiatric explanations for the nation's increase of troubled children and the rationale and research supporting non drug alternative approaches to childhood distress

Transforming Mental Health Services Howard H. Goldman, Jeffrey A. Buck, Kenneth S. Thompson, 2009-06-26 This compendium of 17 articles addresses the goals set forth by the President's New Freedom Commission on Mental Health in its 2003 report Achieving the Promise Transforming Mental Health Care in America The report represents the first time since the Carter Administration that such a high level group evaluated U S mental health care The report painted a dismal picture of the nation's mental health system saying the system was so broken that it was beyond simple repair The Commission said that current services focused on managing disabilities rather than helping patients achieve a meaningful life in their communities It also stated that mental health service providers ignored the preferences of consumers and their families The articles in Transforming Mental Health Services Implementing the Federal Agenda for Change originally published between 2006 and 2009 in Psychiatric Services journal of the American Psychiatric Association offer recommendations to assist adults with serious mental illness and children with serious emotional disturbances They include a series of reforms in which the emphasis is on recovery as an achievable goal and the need for a person centered orientation in service delivery There is also discussion of the reasons many service providers resist using a recovery orientation and how this can be remedied Transforming Mental Health Services Implementing the Federal Agenda for Change consists of updates of papers written by the Commission's subcommittees addressing issues fundamental to those living with mental illness It is organized into four sections The first focuses on the interface between mental health and general health and on employment housing and Medicaid financing The second continues addressing financing and Medicaid as well as issues related to school mental health recovery transformation of data systems and acceleration of research The

third includes reports from four states with transformation initiatives designed to ensure that consumers have a strong voice in the development of recovery oriented services The final section describes progress five years after the President s Commission Report and concludes with a proposal by the current director of the Center for Mental Health Services for a public health model of mental health care for the 21st century This compilation of well researched and well written articles offers an excellent resource for frontline care providers facility administrators and advocates It serves as an equally valuable resource for state policy makers who wish to present a convincing case that change is happening and that the recommendations can be translated into effective policies Although consumers and their families will receive support for their perception that service providers ignore their needs they will also be encouraged that change for the better is coming to the U S mental health care system

Committee on the District of Columbia, 1975 The Dilemma of Federal Mental Health Policy Gerald N. Grob, Howard H Goldman, 2006-11-16 Severe and persistent mental illnesses are among the most pressing health and social problems in contemporary America Recent estimates suggest that more than three million people in the U S have disabling mental disorders The direct and indirect costs of their care exceed 180 billion dollars nationwide each year Effective treatments and services exist but many such individuals do not have access to these services because of limitations in mental

health and social policies For nearly two centuries Americans have grappled with the question of how to serve individuals with severe disorders During the second half of the twentieth century mental health policy advocates reacted against institutional care claiming that community care and treatment would improve the lives of people with mental disorders Once the exclusive province of state governments the federal government moved into this policy arena after World War II Policies ranged from those focused on mental disorders to those that focused more broadly on health and social welfare In this book Gerald N Grob and Howard H Goldman trace how an ever changing coalition of mental health experts patients rights activists and politicians envisioned this community based system of psychiatric services The authors show how policies shifted emphasis from radical reform to incremental change Many have benefited from this shift but many are left without the care they require *Hearings, Reports and Prints of the Senate Committee on Government Operations* United States.
