The African Book Publishing Record ,2008 **English-Medium Instruction and Translanguaging** BethAnne Paulsruud,Zhongfeng Tian,Jeanette Toth,2021-01-20 This book offers a critical exploration of definitions methodologies and ideologies of English medium instruction EMI contributing to new understandings of translanguaging as theory and pedagogy across diverse contexts It brings together a number of conceptual and empirical studies on translanguaging in EMI at different educational levels in a variety of countries with different approaches to translanguaging different named languages and different policies These studies include several underrepresented contexts across the globe providing a broad view of how translanguaging in EMI is understood in these educational settings Furthermore this book addresses the complexities of translanguaging through a discussion of the affordances and constraints associated with the use of multiple linguistic resources in the EMI classroom **Effectiveness of teachers' guides in the Global South** Benjamin Piper,Yasmin Sitabkhan,Jessica Mejia,Kellie Betts,2018-05-10 This report presents the results of RTI International Education s study on teachers guides across 13 countries and 19 projects Using quantitative and qualitative methods we examine how teachers guides across the projects differ and find substantial variation in the design and structure of the documents We develop a scripting index so that the scripting levels of the guides can be compared across projects The impact results of the programs that use teachers guides show significant impacts on learning outcomes associated with approximately an additional half year of learning showing that structured teachers guides contribute to improved learning outcomes During observations we find that teachers make a variety of changes in their classroom instruction from how the guides are written showing that the utilization of structured teachers guides do not create robotic teachers unable to use their own professional skills to teach children Unfortunately many changes that teachers make reduce the amount of group work and interactivity that was described in the guides suggesting that programs should encourage teachers to more heavily utilize the instructional routines designed in the guide The report includes a set of research based guidelines that material developers can use to develop teachers guides that will support effective instructional practices and help improve learning outcomes The key takeaway from the report is that structured teachers guides improve learning outcomes but that overly scripted teachers guides are somewhat less effective than simplified teachers guides that give specific guidance to the teacher but are not written word for word for each lesson in the guide **African Books in Print** ,1978 South African national bibliography ,1998 Classified list with author and title index *Resources in Education* ,1992 Serves as an index to Eric reports microform Bibliokrafi ya Sesotho sa Leboa go fihla ka 1993 ,1994 *Language and Power in Post-Colonial Schooling* Carolyn McKinney,2016-07-15 Critiquing the positioning of children from non dominant groups as linguistically deficient this book aims to bridge the gap between theorizing of language in critical sociolinguistics and approaches to language in education Carolyn McKinney uses the lens of linguistic ideologies teachers and students beliefs about language to shed light

on the continuing problem of reproduction of linguistic inequality Framed within global debates in sociolinguistics and applied linguistics she examines the case of historically white schools in South Africa a post colonial context where political power has shifted but where the power of whiteness continues to provide new insights into the complex relationships between language and power and language and subjectivity Implications for language curricula and policy in contexts of linguistic diversity are foregrounded Providing an accessible overview of the scholarly literature on language ideologies and language as social practice and resource in multilingual contexts Language and Power in Post Colonial Schooling uses the conceptual tools it presents to analyze classroom interaction and ethnographic observations from the day to day life in case study schools and explores implications of both the research literature and the analyses of students and teachers discourses and practices for language in education policy and curriculum Linguistics and Language Behavior Abstracts ,2002
