Experimenting on a Small Planet William W. Hay, 2021-09-27 This book is a thorough introduction to climate science and global change The author is a geologist who has spent much of his life investigating the climate of Earth from a time when it was warm and dinosaurs roamed the land to today's changing climate Bill Hay takes you on a journey to understand how the climate system works He explores how humans are unintentionally conducting a grand uncontrolled experiment which is leading to unanticipated changes We follow the twisting path of seemingly unrelated discoveries in physics chemistry biology geology and even mathematics to learn how they led to our present knowledge of how our planet works He explains why the weather is becoming increasingly chaotic as our planet warms at a rate far faster than at any time in its geologic past He speculates on possible future outcomes and suggests that nature itself may make some unexpected course corrections Although the book is written for the layman with little knowledge of science or mathematics it includes information from many diverse fields to provide even those actively working in the field of climatology with a broader view of this developing drama Experimenting on a Small Planet is a must read for anyone having more than a casual interest in global warming and climate change one of the most important and challenging issues of our time This new edition includes actual data from climate science into 2021 Numerous Powerpoint slides can be downloaded to allow lecturers and teachers to more effectively use the book as a basis for climate change education

Channeling Moroccanness Becky L. Schulthies, 2020-12-01 Honorable Mention 2022 L Carl Brown AIMS Book Prize in North African Studies What does it mean to connect as a people through mass media This book approaches that question by exploring how Moroccans engage communicative failure as they seek to shape social and political relations in urban Fez Over the last decade laments of language and media failure in Fez have focused not just on social relations that used to be and have been lost but also on what ought to be and had yet to be realized Such laments have transpired in a range of communication channels from objects such as devotional prayer beads and remote controls to interactional forms such as storytelling dress styles and orthography to media platforms like television news religious stations or WhatsApp group chats Channeling Moroccanness examines these laments as ways of speaking that created Moroccanness the feeling of participating in the

ongoing formations of Moroccan relationality Rather than furthering the discourse about Morocco's conflict between liberal secularists and religious conservatives this ethnography shows the subtle range of ideologies and practices evoked in Fassi homes to calibrate Moroccan sociality and political consciousness *Muslim Pilgrimage in Europe* Ingild

Halder, 2023-05-18 Analysing an extensive range of texts and publications across multiple genres formats and literary lineages *Reclaiming Karbala* studies the emergence and formation of a viable Muslim identity in Bengal over the late 19th century through the 1940s Beginning with an explanation of the tenets of the battle of Karbala this multi layered study explores what it means to be Muslim as well as the nuanced relationship between religion linguistic identity and literary modernity that marks both Bengaliness and Muslimness in the region This book is an intervention into the literature on regional Islam in Bengal offering a complex perspective on the polemic on religion and language in the formation of a jatiya Bengali Muslim identity in a multilingual context This book by placing this polemic in the context of intra Islamic reformist conflict shows how all these rival reformist groups unanimously negated the Karbala centric commemorative ritual of Muharram and Sh intercessory piety to secure a pro Caliphate sensibility as the core value of the Bengali Muslim public sphere *Eurasian Slavery, Ransom and Abolition in World History, 1200-1860* Dr Christoph Witzentrath, 2015-11-28 Recent research has demonstrated that early modern slavery was much more widespread than the traditional concentration on colonial plantation slavery might suggest This volume provides both an overview and snapshot of current research on the

history of captivity slavery ransom and abolition in the vicinity of the Eurasian steppe from the early modern period to modern times The contributions centre on the Russian Empire while bringing together scholars from various historical traditions of the leading states in this region including Poland Lithuania and the Ottoman Empire and their various successor states [Inclusion in the American Military](#) Morten G.
