- ☐ Review your results:

For topics where you scored well, identify areas the program can help you with. Review the material that you did wrong on to help you get better at next time.

For topics where you scored low, focus your attention on these topics and make them one of the main topics to study throughout the month leading up to your exam.

For topics you want to add into your study plan, research your diagnostic results. If you score 80% or above on a topic, it is not necessary to study that topic. Use the new HESI tool that your study plan incorporates to help you decide if you have time to study that topic.

You can also study topics which you scored lower on the diagnostic to make sure you have a good grasp on them before you have time to study them.
