Spares, Repairs, and Intellectual Property Rights Christopher Heath,2009-01-01 Although supplying spare and replacement parts and providing repair services form the basis of many legitimate businesses many manufacturing enterprises seek to augment the competitive advantage realized at the market stage of selling their main products by attempting to monopolize the market for spares repairs and refills Increasingly companies are using intellectual property laws to devise up front business strategies to gain exclusive rights in the components of their products This is the first in depth analysis of the law in this relatively new and rapidly developing area of practice It sheds clear light on the conflicting interests of manufacturers consumers spare parts makers and the general public explores the extent to which this kind of business strategy can be more or less successful with respect to the different rights involved and in different jurisdictions and highlights the competition issues that inevitably arise The essays included are revised and updated versions of papers presented at the seventh 2006 of the innovative IP conference organized annually by the Macau Institute of European Studies IEEM on intellectual property law and the economic challenges for Asia Among the topics and issues covered are the following notions of and repairand and and recycleand and their legal effects the limits of IP rights in relation to repair and recycle legal limits of end user licence agreements EULAs and technological protection measures TPMs patent exhaustion on repair and recycling alteration of product and identityand the concept of and indirectand or and contributoryand infringement design law strategies and secondary market definitions The authors give detailed attention to cases in various

jurisdictions that have guided and continue to guide business strategies in the field Jurisdictions treated include the EU the US the UK Germany the Netherlands China Hong Kong Japan and Korea In its clarification of the limits and possibilities of business strategies in this area of competition that is just beginning to attract attention this book will be of great value not only to intellectual property law practitioners but to business people in nearly any field of production especially where cross border marketing is involved **A Guide to Hardware** Jean Andrews,2004-02 **Popular Science** ,1982-03 Popular Science gives our readers the information and tools to improve their technology and their world The core belief that Popular Science and our readers share The future is going to be better and science and technology are the driving forces that will help make it better
