Jane's Space Directory ,2002      Yachting ,2002-06      Interavia Space Directory ,1992      Comparative Law in Practice Duncan Fairgrieve,2016-10-20 This book provides a comparative study of contract law examining the interaction of common law and civil law approaches to contract law Drawing extensively upon English French and European law the book explores how the law of contract of Jersey Channel Islands has been influenced by both civil law and common law sources It is argued that this jurisdiction is a striking example of comparative law in action given that Jersey contract law is made up of a blend of common law and civil law approaches Jersey law is premised upon a subjective approach to contracts in which civil law concepts such as cause rather than consideration and vices de consentement are the foundational aspects but is nonetheless highly influenced by the common law in areas such as remedies damages termination etc The book analyses a series of key issues from a comparative and European perspective including the principles underlying contract law comparing and contrasting civil and common law approaches the formation of contract requirements of reciprocity cause vs consideration the structure and approach of precontractual liability the role of good faith in a mixed system the architecture of remedies and more      **Fitness to Plead** Ronnie Mackay,Warren Brookbanks,2018-06-20 The law relating to fitness to plead is an increasingly important area of the criminal law While criminalization may be justified whenever an offender commits a sufficiently serious moral wrong requiring that he or she be called to account the doctrine of fitness to plead calls this principle into question in the case of a person who lacks the capacity or ability to participate meaningfully in a criminal trial In light of the emerging focus on capacity based approaches to decision making and the international human rights requirement that the law should treat defendants fairly this volume offers a benchmark for the theory and practice of fitness to plead providing readers with a unique opportunity to consider differing perspectives and debate on the future development and direction of a doctrine which has up till now been under discussed and under researched The fitness to plead rules stand as an exception to notions of public accountability for criminal wrongdoing yet despite the doctrine s long standing function in criminal procedure it has proven complex to apply in practice and has given rise to many varied legislative models and considerable litigation in different jurisdictions Particularly troublesome is the question of what is to be done with someone who has been found unfit to stand trial Here the law is required to balance the need to protect those defendants who are unable to participate effectively in their own trial whether permanently or for a defined period and the need to protect the public from people who may have caused serious social harm as a result of their antisocial behaviour The challenge for law reformers legislators and judges is to create rules that ensure that everyone who can properly be tried is tried while seeking to preserve confidence in the fairness of the legal system by ensuring that people who cannot properly engage in the criminal trial process are not forced to endure it      Guide to GPS Positioning David Wells,Norman Beck,Canadian GPS Associates,1987 The Guide to GPS Positioning is a self contained introduction to the Global Positioning
