### **Functional Future for Bibliographic Control**

Shawne D. Miksa, 2017-07-05 The quest to evolve bibliographic control to an equal or greater standing within the current information environment is on going As information organizers we are working in a time where information and communication technology ICT has pushed our status quo to its limits and where innovation often needs the pressure of do or die in order to get started The year 2010 was designated as the Year of Cataloging Research and we made progress on studying the challenges facing metadata and information organization practices However one year of research is merely a drop in the bucket especially given the results of the Resource and Description and Access RDA National Test and the Library of Congress decision to investigate the possibility of transitioning the MARC21 format This book addresses how information professionals can create a functional environment in which we move beyond just representing information resources and into an environment that both represents and connects at a deeper level Most importantly it offers insight on transitioning into new communities of practice and awareness by reassessing our purpose re charting our efforts reasserting our expertise in the areas that information organizer have traditionally claimed but are losing due to stagnation and lack of vision This book was published as a double special issue of the Journal of Library Metadata

### **On a Mission**

Valerie Neal, 2025-10-28 The definitive history of all 61 American women astronauts that s perfect for fans of The Six eager for more Sally Ride became a household name as the first American woman in space but scores of equally impressive women have also left their mark in space On a Mission The Smithsonian History of US Women Astronauts spans 45 years and 61 astronauts to share the epic journeys of women who made space for themselves in a male dominated field Valerie Neal emerita curator in the Department of Space History at the Smithsonian s National Air and Space Museum offers a culturally insightful history of the experiences of women astronauts the challenges they ve faced and their distinctive stories Collectively they ve completed more than 100 space shuttle missions and more than 30 long duration stays on the International Space Station and Russian Space Station Mir and they continue to prove themselves in present day space exploration efforts The book includes 50 black and white photographs to complement the historical account With its sweeping look from the first women astronauts to Christina Hammock Koch assigned to the first crewed Artemis mission around the Moon there is no comparably thorough book on America s women astronauts On a Mission is an inspiring tribute to unsung women s history
