HC 712 - The Work of the Immigration Directorates (January - June 2014) Great Britain. Parliament. House of Commons. Home Affairs Committee, 2014 In 1998 the previous government abolished exit checks paper based embarkation records of passengers departing from the UK because they were too resource intensive Those universal exit checks were replaced by an intelligence led approach using CCTV and greater liaison between border agencies port operators and transport carriers This approach was subsequently superseded by the e Borders programme announced in February 2005 The e Borders programme has stalled and was terminated in March 2014 and that the Home Office would be replacing individual systems such as the Warnings Index and Semaphore separately At the moment data for air passengers travelling in and out of the UK is sourced from carrier lists known as Advanced Passenger Information API Air passengers buy tickets in advance and check in a reasonable time before departure so API coverage is good about 80% and increasing Coverage is not so good for rail and ferry passengers partly because of the ticketing systems and partly because customers can decide to travel buy a ticket and have checked in at a time near to departure Both the Minister and the Director General of Border Force have assured the Committee that 100% exit checks will be in place by 31st March 2015 To deliver exit checks the Home Office needs to find a mechanism that can count all of the rail and maritime passengers as they depart the UK by the end of March Exit checks will be carried out by the transport operators staff not Border Force The Committee hope this can be delivered

The Armed Forces Covenant in action? Great Britain: Parliament: House of Commons: Defence Committee,2013-07-18 A series of Ofsted inspections on Army Apprenticeships conducted in 2013 rated the overall effectiveness as good This was an improvement over the last inspection in 2009 rated as satisfactory now called requires improvement Some 28 per cent of Army recruits were less than 18 years of age Further information is needed on why the Army is so dependent on recruiting personnel under the age of 18 years compared to the other two Services and whether steps are being taken to reduce this dependency Of those recruited in 2012 3 5 per cent of the Army were rated at entry level 2 for literacy that of a 7 to 8 year old and 39 per cent had a literacy level of an eleven year old If as the MoD states it has to recruit personnel at whatever level of attainment is available then it should boost remedial action when recruitment entry standards are particularly low In light of changes brought about by Future Force 2020 it may be that recruiting personnel with higher levels of attainment would better meet the future needs of the Armed Forces Whilst the Committee recognises that some recruits may not be eager to take further academic exams the MoD should encourage more recruits to undertake English and Maths GCSEs which would stand them in good stead for future employment The MoD has carried out some useful pilot projects with paramedic training and should identify more potential projects to ensure that vital skills paid for by the MoD are not lost to the country

Attracting and Keeping the Best Teachers Anna Sullivan, Bruce Johnson, Michele Simons, 2019-08-26 This book challenges dominant thinking about early career teachers and their work. It offers an in depth and critical analysis of policies concerning the work of early career teachers and how they are supported during this critical period when they are highly vulnerable to leaving the profession. Moreover, the book provides examples from actual practice that illustrate how to help early career teachers make a successful transition into the profession. These practices promote early career teachers' development and help the profession as a whole to capitalize on the new knowledge and skills that these teachers bring to their classrooms and their students. The book is divided into two main parts. Part 1 deals with the difficult to define process of retaining early career teachers and its respective chapters consider this broad issue from an international perspective. They explore how policies and practices have an impact on what happens in schools and what it means to be a teacher and to teach. In turn, Part 2 focuses on the need to reconsider the policies and practices that create the problem of early career teachers and offers alternative ways forward. Each chapter addresses a specific aspect of the early career teacher retention issue contributing to a greater understanding of how we can rethink the work of early career teachers so that they can more successfully transition into the profession. This event, the first successful revolution by enslaved people in modern history, sent shock waves throughout the Atlantic World. Regardless of its historical significance, however, this revolution has become less well known and appears less often on screen than most other revolutions. Its story involving enslaved Africans liberating themselves through violence does not match the suffering slaves waiting for a white hero genre that pervades Hollywood treatments of Black history. Despite Hollywood's near silence on this event, some films on the Revolution do exist from directors in Haiti, the US, France, and elsewhere. *Slave Revolt on Screen* offers the first ever comprehensive analysis of Haitian Revolution cinema, including completed films and planned projects that were never made. In addition to studying cinema, this book also breaks ground in examining video games, a pop culture form long neglected by

historians Sepinwall scrutinizes video game depictions of Haitian slave revolt that appear in games like the Assassin's Creed series that have reached millions more players than comparable films In analyzing films and games on the revolution *Slave Revolt on Screen* calls attention to the ways that economic legacies of slavery and colonialism warp pop culture portrayals of the past and leave audiences with distorted understandings
