

- 5 Paul buys a number of large sacks of fertiliser costing \$x each.

He spends \$27.

- (a) Write down, in terms of x , an expression for the number of large sacks which Paul buys.

$$\frac{27}{x}$$

Answer(a) $\frac{27}{x}$ [1]

- (b) Rula buys a number of small sacks of fertiliser.
Each small sack costs \$2 less than a large sack. $\rightarrow x-2$ each
Rula spends \$25.

Write down, in terms of x , an expression for the number of small sacks which Rula buys.

$$\frac{25}{x-2}$$

Answer(b) $\frac{25}{x-2}$ [1]

- (c) Rula buys 4 more sacks than Paul.
Write down an equation in x and show that it simplifies to $2x^2 - 3x - 27 = 0$.

Answer(c)

$$\begin{aligned} \frac{25}{x-2} &= \frac{27}{x} + 4 & / x(x-2) \\ 25x &= 27(x-2) + 4x(x-2) \\ 25x &= 27x - 54 + 4x^2 - 8x \\ 0 &= 4x^2 - 6x - 54 \\ 2x^2 - 3x - 27 &= 0 \end{aligned}$$

- (d) Solve $2x^2 - 3x - 27 = 0$.

$$a=2 \quad b=-3 \quad c=-27$$

$$x_{1,2} = \frac{-b \pm \sqrt{b^2 - 4ac}}{2a}$$

$$\frac{-(-3) \pm \sqrt{3^2 - 4 \times 2(-27)}}{4}$$

$$\frac{3 \pm \sqrt{9 + 216}}{4} = \frac{3 \pm 15}{4}$$

Answer(d) $x = \frac{9}{2}$ or $x = -3$ [3]

- (e) Calculate the number of sacks which Paul buys.

$$\frac{27}{9/2} = 6$$

Answer(e) 6 [1]

Ecology and Coal Resource Development Mohan K. Wali, 2013-09-17. *Ecology and Coal Resource Development* Volume One covers the proceedings of the International Congress for Energy and the Ecosystem held at the University of North Dakota, Grand Forks, North Dakota, on June 12-16, 1978. The book focuses on the factors and considerations involved in the interrelation of ecology and coal resource development. The selection first tackles the U.S. coal development policy, coal's response to the challenge in the national energy plan, coal utilization and supply, and the role of the Office of Surface Mining on combining energy and the environment. The book then examines the assessment of the effects of alternative public policies on western coal development, opencast coal mining and the environment in the United Kingdom, mining ecology and environmental problems of coal mining in Australia, and mining dewatering and environmental effects. The manuscript takes a look at combating pollution created by coal burning generating plants in Yugoslavia, policy aspects of energy resource development on Indian lands, interactive computerized planning of surface coal mining operations, and simulation models for surface coal mine planning. The selection is a dependable reference material for scientists and researchers interested in the marriage of ecology and coal resource development.

Combinatorial Pattern Matching Johannes Fischer, Peter Sanders, 2013-05-16. This book constitutes the refereed proceedings of the 24th Annual Symposium on Combinatorial Pattern Matching (CPM 2013) held in Bad Herrenalb near Karlsruhe, Germany, in June 2013. The 21 revised full papers presented together with 2 invited talks were carefully reviewed and selected from 51 submissions. The papers address issues of searching and matching strings and more complicated patterns such as trees, regular expressions, graphs, point sets, and arrays. The goal is to derive non-trivial combinatorial properties of such structures and to exploit these properties in order to either achieve superior performance for the corresponding computational problem or pinpoint conditions under which searches cannot be performed efficiently. The meeting also deals with problems in computational biology, data compression, and data mining, coding, information retrieval, natural language processing, and pattern recognition.

A Progressive Occupation? Michael P. M. Finch, 2013-08-15. On the eve of the twentieth century, Joseph Gallieni and Hubert Lyautey claimed to have devised a new approach to the consolidation of colonial acquisitions. Their method emphasized the primacy of political action over military action, called for the replacement of military columns with a creeping occupation.

stressed the importance of economic organisational development in ensuring the lasting stability of newly acquired imperial possessions and called for the unification of civil and military powers in the hands of the soldier who would act as the first administrator of the colony This method was the culmination of colonial experiences in Tonkin and Madagascar in the final decades of the nineteenth century Following Gallieni s career path across these colonies A Progressive Occupation The Gallieni Lyautey Method and Colonial Pacification in Tonkin and Madagascar 1885 1900 focuses first on the painful process of pacification in Tonkin locating the emergence of the method and Gallieni s own achievements in their proper context The volume s focus then moves across the Indian Ocean to Madagascar where Gallieni combining the roles of Commander in Chief and Governor General was able to play out his nascent colonial method on a grand scale Meanwhile his subordinates with Lyautey at the forefront were able to interpret his method in the execution of their missions Drawing heavily on French archival sources Michael Finch sheds new light on colonial conflict and consolidation during the age of European imperial expansion illustrates the differences gaps and transgressions that exist between the theory and the practice of pacification and raises broader questions about the French army empire and civil military relations

Topics in Operator Theory Systems and Networks Dym, Gohberg, 2013-11-22 This volume contains the proceedings of the Workshop on applications of linear operator theory to systems and networks which was held at the Weizmann Institute of Science in the third week of June 1983 just before the MTNS Conference in Beersheva. For a long time these subjects were studied independently by mathematical analysts and electrical engineers. Nevertheless in spite of the lack of communication these two groups often developed parallel theories though in different languages at different levels of generality and typically quite different motivations. In the last several years each side has become aware of the work of the other and there is a seemingly ever increasing involvement of the abstract theories of factorization extension and interpolation of operators and operator matrix valued functions to the design and analysis of systems and networks. Moreover the problems encountered in electrical engineering have generated new mathematical problems new approaches and useful new formulations. The papers contained in this volume constitute a more than representative selection of the presented talks and discussion at the workshop and hopefully will also serve to give a reasonably accurate picture of the problems which are under active study today and the techniques which are used to deal with them.

Advances in Optimization Werner Oettli, Diethard Pallaschke, 2013-11-27 This volume contains actual contributions to the current research directions in Optimization Theory as well as applications to economic problems and to problems in industrial engineering. Of particular interest are convex and Nonsmooth Analysis Sensitivity Theory Optimization techniques for nonsmooth and Variational problems Control Theory and Vector optimization. The volume contains research and survey papers. The main benefit is given by a global survey of the state of art of modern Optimization Theory and some typical applications.

Finding Baseball's Next Clemente Roger Bruns, 2015-07-14 This book examines what it takes for Latino youngsters to beat the odds overcoming cultural and racial barriers and a corrupt recruitment system to play professional baseball in the United States. Latin Americans now comprise nearly 30 percent of the players in Major League Baseball MLB. This provocative work looks at how young Latinos are recruited and often exploited.

and at the cultural linguistic and racial challenges faced by those who do make it There are exposés of baseball camps where teens are encouraged to sacrifice education in favor of hitting and fielding drills and descriptions of fraud cases in which youngsters claim to be older than they are in order to sign contracts The book also documents the increasing use of steroids and other performance enhancing drugs by kids desperately trying to gain an edge In addition to discussing the hard road many Latinos follow to MLB the work also traces the fascinating history of baseball's introduction in Latin American countries in some cases more than a century ago Finally there are the stories of great Latino players of men like Roberto Clemente and Carlos Beltran who made it to the majors but also of men who were not so lucky Through their tales readers can share the dreams and expectations of young men who for better or worse believe in America's pastime as their gateway out of poverty
