*Legacies of the Magdalen Laundries* Miriam Haughton, Mary McAuliffe, Emilie Pine, 2021-11-23 This collection raises incisive questions about the links between the postcolonial carceral system which thrived in Ireland after 1922 and larger questions of gender sexuality identity class race and religion This kind of intersectional history is vital not only in looking back but in looking forward to identify the ways in which structural callousness still marks Irish society Essays include historical analysis of the ways in which women and children were incarcerated in residential institutions Ireland's Direct Provision system the policing of female bodily autonomy through legislation on prostitution and abortion in addition to the legacies of the Magdalen laundries This collection also considers how artistic practice and commemoration have acted as vital interventions in social attitudes and public knowledge helping to create knowledge and re shape social attitudes towards this history

*Financialization* Chris Hann, Don Kalb, 2020-08-01 Beginning with an original historical vision of financialization in human history this volume then continues with a rich set of contemporary ethnographic case studies from Europe Asia and Africa Authors explore the ways in which finance inserts itself into relationships of class and kinship how it adapts to non Western religious traditions and how it reconfigures legal and ecological dimensions of social organization and urban social relations in general Central themes include the indebtedness of individuals and households the impact of digital technologies the struggle for housing financial education and political contestation

*Banks, Exchanges, and Regulators* Ranald C. Michie, 2020-11-26 Never have financial markets been subjected to a period of change as rapid and extensive as took place from the 1970s onwards In the 1970s global financial markets were controlled by governments compartmentalized along national boundaries and segregated according to the particular activities they engaged in This all disintegrated in the decades that followed under the pressure of market forces global integration and a revolution in the technology of trading

One product of this transformation was the Global Financial Crisis of 2008 which exposed the fragility of the new structures created and cast a long shadow that we still live in today. The response to that crisis has shaped the global financial system which has been tested once again by the coronavirus pandemic. However, none of the outcomes of this transformation were inevitable despite the forces at work. They were the product of decisions taken at the time for a multitude of reasons. Banks, exchanges and regulators were faced with unprecedented challenges and opportunities as a revolution swept away traditional ways of conducting banking, the methods used to trade in financial markets and the rules and regulations employed to enforce discipline. In this book, Randal C. Michie provides an authoritative and unrivalled account of this upheaval based on a careful and exhaustive reading of the Financial Times over the last four decades, using it to provide a source of material unmatched by any other in terms of depth and coverage. By studying what happened and why in real time, it is possible to explain the decisions taken that shaped the course of the transformation and its repercussions.

House of Commons - Communities and Local Government Committee: Community Budgets - HC 163 Great Britain: Parliament: House of Commons: Communities and Local Government Committee, 2013-10-23. Community Budgets are demonstrating their potential to deliver cheaper, more integrated and more effective public services. They are at risk, however, of being replaced after a few years if key issues are not resolved. If this opportunity is missed, the Committee warns that local services could come under unsustainable pressure in the face of increased demand and reduced budgets. This in turn may result in more spending later on judicial and emergency health and welfare interventions. The Government should send a clear message that it will assist every local authority wishing to introduce Community Budgets and to set out the specific assistance it will provide them with. Furthermore, the programme of pilots must not be allowed to slow progress towards wider implementation. If they are to succeed, public service providers and local authorities must realise investment in Community Budgets will bring them benefits. Local authorities, their partners and central government should therefore develop a framework for agreements on how the benefits of investment are to be shared. On the Troubled Families Programme, the Committee is supportive of the work being done but highlights the need for greater focus on how work with these families will continue after the programme ends in 2016. Noting that the resources available have not increased in proportion to the number of families added to the programme in June, DCLG needs to monitor carefully progress and provide more resources to local authorities if necessary.

**Creativity in the English Curriculum** Lorna Smith, 2023-04-21. Creativity in the English Curriculum is essential reading for anyone involved or interested in the teaching of English, offering both a detailed history of how creativity has informed the tradition of teaching English and how it should be used to position this teaching in the future. Highlighting the need to promote creativity as a rich intellectual pursuit, Creativity in the English Curriculum celebrates artistry in English past and present and argues for its restoration to the curriculum. It emphasises that creativity is at the core of a humane education, not only through stimulating and enhancing the growth of the individual but also through developing

understanding of the importance of community society and collaboration Smith presents the historical relationship between curriculum policy and creativity demonstrating that creativity has and always will be the life blood of teaching and learning Including dialogues between expert English teaching practitioners and leading professionals concerning the place of creativity in English Creativity in the English Curriculum includes practical research informed ideas for effective creative practice for any English classroom It is a must read for teachers educators parents and guardians to prepare all learners for life in and beyond school [7 Years UPSC IAS/ IPS Mains General Studies Papers 1 - 4 Year-wise Solved \(2013 - 2019\)](#) Disha Experts,2019-10-21 *Minerals Yearbook, 2013, Area Reports: International, Asia and the Pacific* U. *Reconceptualising Power in Language Policy* Abhimanyu Sharma, 2022-08-12 This book aims to expand the theoretical framework of and counter the Eurocentric narratives in language policy research by comparing policies of EU and India and demonstrating the importance of taking a comparative perspective while studying language policies This book challenges the notion of macro level power in language policy research and offers evidence that in democratic frameworks macro level power is not absolute It is not uniform across policy domains but rather susceptible to pressure especially in the domains of healthcare and social welfare This book makes three important contributions to the theory of language policy by Arguing for the need to reconceptualise macro level power Proposing Categories of Differentiation as a new analytical tool for policy research Demonstrating that socio political changes are reflected at the textual level This book is of interest to researchers working on language policies and those investigating language related legislation across different policy domains to practitioners and policymakers in language policy as well as to graduate students conducting comparative policy research This is a much valued and timely book making a strong case for the subject of language policy across Europe and India The large comparative case studies of four distinctive states across Europe and India in a simple descriptive mode makes the reading of this book enjoyable The domains of administration legislation healthcare and social welfare are undoubtedly novel ways to deal within the concept of language policy in a wider sense The author uses discourse analysis to bring out the relationship between intention explanation and interpretation of a phenomenon like language policy and its implementation The social diversity as expressed in linguistic mapping is well captured in the novel idea of categories of differentiation both as a normative methodological tool and its historical empirical manifestation Asha Sarangi Jawaharlal Nehru University New Delhi Volume 7, Issue 1, Winter 2019 Journal of Law and Cyber Warfare, *On Unemployment* Mark R. Reiff, 2015-10-07 With unemployment at historically high rates that show signs of becoming structural there is a pressing need for an in depth exploration of this economic injustice Unemployment is one of the problems most likely to put critical pressure on our political institutions disrupt the social fabric of our way of life and even threaten the continuation of liberalism itself Despite the obvious importance of the problem of unemployment however there has been a curious lack of attention paid to this issue by contemporary non Marxist political philosophers On Unemployment explores the moral implications of the problem of unemployment despite the continuing uncertainty involving both its causes and its cures Reiff takes up a series of questions about the nature of unemployment and what justice has to tell us about what we should do if anything to alleviate it The book comprehensively discusses the related theory and suggests how we might implement these more general observations in the real world It addresses the politics of unemployment and the extent to which opposition to some or all of the book's various proposals stem not from empirical disagreements about the best solutions but from more basic moral disagreements about

whether the reduction of unemployment is indeed an appropriate moral goal This exciting new text will be essential for scholars and readers across business economics and finance as well as politics philosophy and sociology
