Sefotho, Ronél Ferreira, 2020-12-31 This book *Teaching Learners with Visual Impairment* focuses on holistic support to learners with visual impairment in and beyond the classroom and school context. EFA Global Monitoring Report – 2013-2014 – Teaching and Learning: Achieving quality for all UNESCO, 2014-02-04 The 2013/2014 Education for All Global Monitoring Report shows that a lack of attention to education quality and a failure to reach the marginalized have contributed to a learning crisis that needs urgent attention. Worldwide, 250 million children, many of them from disadvantaged backgrounds, are not learning the basics. *Teaching and Learning: Achieving Quality for All* describes how policy makers can support and sustain a quality education system for all children regardless of background by providing the best teachers. The Report also documents global progress in achieving Education for All goals and provides lessons for setting a new education agenda post 2015. In addition, the Report identifies that insufficient financing is hindering advances in education.

Assessing Academic Literacy in a Multilingual Society Albert Weideman, John Read, Theo du Plessis, 2020-11-02 South African universities face major challenges in meeting the needs of their students in the area of academic language and literacy. The dominant medium of instruction in the universities is English, and to a much lesser extent Afrikaans, but only a minority of the national population are native speakers of these languages. Nine other languages can be media of instruction in schools, which makes the transition to tertiary education difficult enough in itself for students from these schools. The focus of this book is on procedures for assessing the academic language and literacy levels and needs of students not in order to exclude students from higher education but rather to identify those who would benefit from further development of their ability in order to undertake their degree studies successfully. The volume also aims to bring the innovative solutions designed by South African educators to a wider international audience. **Instructional Practices with and without**

Landrum, 2016-07-06 It is important for stakeholders to be aware of both practices supported as effective as well as ineffective for students with learning and behavioral disabilities in order to provide instruction that results in improved learner outcomes in critical areas of education. **Bringing the Common Core Math Standards to Life** Yvelyne Germain-McCarthy, Ivan Gill, 2014-11-20 As high school math teachers shift to the Common Core State Standards, the question remains: What do the standards actually look like in the classroom?
