National Labor Relations Board, 2016-05 **PGT Commerce Question Paper with Answer Key Subject-Wise Bifurcated - Volume II Covering Business Studies, International Business, Financial Management, Business Management, Human Resource Management and Marketing Management** Dheeraj K. Singh, **Vietnamese Labour Militancy** Joe Buckley, 2021-12-30

This book explores how capital labour relations and antagonisms structure forms of militancy in Vietnam and shows that Vietnamese labour militancy is in line with global trends of worker activism Vietnamese labour politics is undergoing significant changes with a new Labour code that became law in 2021 allowing workers to join worker representative organisations not subordinate to the state led union or the ruling Communist Party This book reflects on the nature of Vietnamese labour politics on the cusp of reform It focuses on nominally formal labour within the garment and footwear industry in the southern part of the country the author argues that while employment in the formal economy is expanding in terms of the absolute numbers of people working in formally registered firms capital employs various ways to make conditions inside these companies increasingly insecure In response workers organise in forms of decentralised resistance The book analyses two of these in detail wildcat strikes and microstrikes short collective work stoppages that occur inside workplaces Arguing that labour resistance is structured in relation to capital s behaviour and not only because of weak labour relations institutions and mechanisms this book makes a valuable contribution to the field of labour and social movement studies development studies sociology and political economy and Southeast Asian Studies Labor Relations and Human Resource Management in China Connie Zheng, 2019-05-20 This book takes a strategic approach and provides a comprehensive review of books and papers about human resource management HRM and labor relations management in China especially since China s accession to the World Trade Organization WTO in 2001 In particular the book evaluates the development of HRM under China s changing institutional environment particularly since President Xi Jinping has taken dominant control of the Chinese Community Party CCP from 2010 onwards The book provides a historical snapshot of how HRM has been rooted in China and its rhetorical impact on China s national economic development continuing enterprise reform and sustaining individual creativity and innovation It discusses and analyzes HRM and spirituality in the context of a rising aspiration of achieving the Chinese Dream as conceptualized by President Xi Jinping **The Deconstruction of Employment as a Political Question** Amparo Serrano-Pascual, Maria Jepsen, 2018-07-20 The wide ranging European perspectives brought together in this volume aim to analyse by means of an interdisciplinary approach the numerous implications of a massive shift in the conception of work and the category of worker Changes in the production models economic downturn and increasing digitalisation have triggered a breakdown in the terms and assumptions that previously defined and shaped the notion of employment This has made it more difficult to discuss and problematise issues like

vulnerability in employment in such terms as unfairness inequality and inadequate protection Taking the deconstruction of employment as a central idea for theorising the phenomenon of work today this volume explores the emergence of new semantic fields and territories for understanding and regulating employment These new linguistic categories have implications beyond language alone they reformulate the very concept of waged employment including those aspects previously considered intrinsic to the meaning of work and of being a worker along with other closely associated categories such as unemployment self employment and inactivity
