2.) Answer the following questions (4 sentences per question, minimum).

Why do composers need to think about form in music?

Composers need to think about the form of music to create harmony and balance to their piece. Without balance, the song will not have any structure and would be unpleasant to hear. It is important to have a good form as a base to build the shape with a consonant or dissonant intervals and create harmony. The whole song will also be easier to understand and follow.
