sentence final particles and other medial sentential and illocutive particles This book addresses three great questions in a
variety of languages ranging from Japanese to Mohawk including Basque French German Italian Kazakh Spanish and Turkish
with some insights from English and Russian The first question is the role played by information structural strategies such as
left dislocations clefts or the morphological marking of focus in the rise of discourse particles In the second part papers are
concerned with the relevance of information structure for the study of polysemic and polyfunctional discourse particles
Finally the contribution of particles to the determination of the information structural profile of the clause is examined as
