By Invitation Only Steven E. Schier, 2012-01-12 By Invitation Only examines the shift in the United States from mobilization the partisan method of stimulating very high voter turnout in elections to activation the political variant of niche marketing This more contemporary method that parties interest groups and candidates employ induces particular finely targeted portions of the public to become active in elections demonstrations and lobbying Traditional partisan mobilization was a crude tool operating through personal and print communication It involved broad appeals often carried through personal conversation with local party workers or through America s then highly partisan press Political mobilization predominated during election campaigns of the late 19th and early 20th centuries a period of peak party power The shift from mobilization to activation allows organizers to mobilize strategic minorities while cloaking the effort in a misleading

guise of popular rule The vogue of participation is that all should get involved In fact as Schier illustrates the process encourages only a strategically selected few to vote in elections or petition government for their interests The result is a decline of majority rule in American politics A must read for anyone concerned with politics in America **BETWEEN THEE AND ME** Donald B.
