Fagg,1995 This lucid and wide ranging study sets out to reconcile the objective and subjective perspectives in the investigation of the phenomenon of time Lawrence W Fagg explores the wondrous subtleties of time that modern physics continues to reveal but complements them with the rich insights of the spiritual perspectives on time that the world s major religions have to offer Helga Nowotny Former President International Society for the Study of Time     Masks of Authority Claude Calame,2005 Exploring a variety of literary texts representing different poetic genres Claude Calame an internationally known classicist draws the lineaments of a real history of the means used by ancient Greek poets to create in their works a fictional authorship In this collection of essays he shows that they made of their poems through various discursive strategies texts to be performed with the collective ritual and pragmatic values implicit in the ideas of craft and performance How is it possible to distinguish between the external context and reception of a discursive work and the elaborate poetic effects produced in the text itself by means of language Clearly the partly fictional figure of the author constructed by the text is not the same as the biographical author In ancient Greece moreover the person of the composer of a poem was often distinct from the person of its performer Important examples in *Masks of Authority* include some of the Homeric Hymns didactic poetry by Hesiod a bucolic poem of Theocritus performed poetry by Sappho and mimetic poems by Callimachus Attic tragedy and comedy in masked performances Sophocles and Aristophanes an iconographic inscription an authoritative scientific discourse by Hippocrates and an initiatory commentary to an Orphic theogony The result is a selective history of Greek poetics from the perspective of its authorial devices and social functions its place between oral and written traditions     **Mercury** ,1986     **Persons and Masks of the Law** John T. Noonan,2002-05-29 Noonan discusses how the concept of property applied to a person is a perfect mask since no trace of human identity remains An auction of slaves in Virginia the takeover of a banana plantation in Costa Rica and an accident on the Long Island Railroad are the famous cases involving these four legal giants The stories of the litigations at three different periods of our history provide a powerful analysis of American law Breaking through the formalism in which jurisprudence is often enshrined Noonan offers a compelling vision of law and a potent call for reform in the education and behavior of lawyers BOOK JACKET
