Content and Process Specificity in the Effects of Prior Experiences Robert S. Wyer, Jr., Thomas K. Srull, 2014-02-04 In Volume 3 Eliot R Smith of Purdue University proposes that social cognition theorists have placed excessive emphasis on the role of schemata prototypes and various other types of abstractions This has affected both the methodologies they use and the type of theories they construct What has not been adequately appreciated is the storage and retrieval of specific episodes especially those with idiosyncratic features This volume is designed as a required text for those studying personality experimental and consumer psychology cognitive science and communications

Doing Interpretive Research Koen P. R. Bartels, Hendrik Wagenaar, 2025-05-13 Interpretivism has an intuitive appeal to many social researchers but they often feel ill equipped to do it Other social researchers tend to believe that interpretivism is a specialized niche with little relevance to their research practice What has been lost is the awareness that interpretation is an explanatory logic and form of inquiry that is at the root of all social science research including quantitative research In this volume the authors guide social researchers and instructors in better understanding and improving the experience of doing interpretive research They explore the centrality of experience in learning and teaching interpretive research paying special attention to the role of emotions in the learning process and the way that negative emotions such as doubt and anxiety can impart learning The authors provide a novel approach to methods teaching by offering a set of heuristics open ended strategies of inquiry and discovery for improving the practice of social research Uniquely they demonstrate how emotions can be leveraged in the learning process to uncover surprising new insights about social reality and unlock researchers imagination They reveal how social researchers engaged or interested in interpretivism in learning can turn their research into an enjoyable productive and imaginative experience

The Oxford Handbook of Health Care Management Ewan Ferlie, Kathleen Montgomery, Anne Reff Pedersen, 2016-04-07 This Handbook provides an authoritative overview of current issues and debates in the field of health care management It contains over twenty chapters from well known and eminent academic authors who were carefully selected for their expertise and asked to provide a broad and critical overview of developments in their particular topic area The development of an international perspective and body of knowledge is a key feature of the book The Handbook secondly makes a case for bringing back a social science perspective into the study of the field of health care management It therefore contains a number of contrasting and theoretically orientated chapters e.g. on institutionalism critical management studies This social science based approach is a refreshing alternative to much existing work in this domain and offers a good way into current academic debates in this field The Handbook thirdly explores a variety of important policy and organizational developments apparent within the current health care field e.g. new organizational forms growth of management consulting in health care organizations It therefore explores and comments on major contemporary trends apparent in the practice field

The

Languages of Early Medieval Charters, 2020-11-23 This is the first major study of the interplay between Latin and Germanic vernaculars in early medieval records Building on previous work on the uses of the written word in the early Middle Ages which has dispelled the myth that this was an age of orality the contributions in this volume bring to the fore the crucial question of language choice in the documentary cultures of early medieval societies Specifically they examine the interactions between Latin and Germanic vernaculars in the Anglo Saxon and eastern Frankish worlds and in neighbouring areas The chapters are underpinned by an important comparative dimension on account of the two regions shared linguistic heritage and numerous cross Channel links Contributors are Stefan Esders Albert Fenton Robert Gallagher Wolfgang Haubrichs Charles Insley Kathryn A Lowe Rosamond McKitterick Rory Naismith Janet L Nelson Edward Roberts Annina Seiler Marco Stoffella Francesca Tinti Kate Wiles Bernhard Zeller See inside the book **The Truth about Language**

Michael C. Corballis, 2024-05-31 Evolutionary science has long viewed language as basically a fortunate accident a crossing of wires that happened to be extraordinarily useful setting humans apart from other animals and onto a trajectory that would see their brains and the products of those brains become increasingly complex But as Michael C Corballis shows in *The Truth about Language* it's time to reconsider those assumptions Language he argues is not the product of some big bang 60 000 years ago but rather the result of a typically slow process of evolution with roots in elements of grammatical language found much farther back in our evolutionary history Language Corballis explains evolved as a way to share thoughts and crucially for human development to connect our own mental time travel our imagining of events and people that are not right in front of us to that of other people We share that ability with other animals but it was the development of language that made it powerful it led to our ability to imagine other perspectives to imagine ourselves in the minds of others a development that by easing social interaction proved to be an extraordinary evolutionary advantage Even as his thesis challenges such giants as Chomsky and Stephen Jay Gould Corballis writes accessibly and wittily filling his account with unforgettable anecdotes and fascinating historical examples The result is a book that's perfect both for deep engagement and as brilliant fodder for that lightest of all forms of language cocktail party chatter **Corporate Strategies in Recession and Recovery (Routledge Revivals)**

Richard Whittington, 2014-06-03 First published in 1989 this book is based on detailed comparative case studies of eight firms responses to the recession of the early 1980s the worst crisis for British manufacturing in the post war period Following these companies progress from 1979 to 1985 Whittington examines the various recession strategies they adopted and the consequences of these for management change and financial performance in the recovery Drawing on the Realist social theory of Roy Bhaskar Whittington argues that the class gender generation and ethnicity of the decision makers involved in the eight case studies collectively made an impact on their strategic choices This is a timely and practical reissue which will be of value to students managers and academics concerned with strategic management developments in organizational theory and the current economic climate **Robert Thornton and His Books** Susanna Fein, Michael Robert

Johnston,2014 Essays examining the compiler and contents of two of the most important and significant extant late medieval manuscript collections The national forest Great Britain: Parliament: House of Commons: Environment, Food and Rural Affairs Committee,2010-03-19 The National Forest project was established in 1995 with the aim of creating a new English forest across a 200 square mile area embracing parts of Leicestershire Staffordshire and Derbyshire The National Forest s purpose is to increase woodland cover to a third of The National Forest area whilst demonstrating sustainable multi purpose land use including growing timber providing leisure and tourism facilities and developing natural habitats Key features of The National Forest are its linkage of previously isolated ancient woodlands and the establishment of new nature reserves as well as the provision of a framework for farm diversification and the regeneration of former coalfields It is delivering tangible environmental economic and social benefits to an area of the Midlands much of which was suffering economic and environmental decline through planting trees to create new woods and forests Its achievement is not so much in trebling the proportion of land with tree cover to 18 per cent but that in so doing it has helped to regenerate the local economy open up the Forest to greater public use and improve the natural environment The success has been built on the commitment and skills of all the partner organisations and The National Forest Company has played a crucial leadership role to enable the project to deliver effectively the multiple benefits of forestry There needs to be a systematic approach to disseminating the company s experiences so that lessons learned can be exploited across England *The SAGE Handbook of Qualitative Research in Psychology* Carla Willig,Wendy Stainton Rogers,2017-03-31 One of our bestselling handbooks The SAGE Handbook of Qualitative Research in Psychology is back for a second edition Since the first edition qualitative research in psychology has been transformed Responding to this existing chapters have been updated and three new chapters introduced on Thematic Analysis Interpretation and Netnography With a focus on methodological progress throughout the chapters are organised into three sections Section One Methods Section Two Perspectives and Techniques Section Three Applications In the field of psychology and beyond this handbook will constitute a valuable resource for both experienced qualitative researchers and novices for many years to come **Advances in Mergers and Acquisitions** Cary L.
