Memoirs Of A Firefighterparamedic English Edition:

Memoirs of a Firefighter/Paramedic Bruce Zamelsky, 2008 This book has more than twenty years of real life incidents and was written for two reasons I want those who are just starting in this profession and also those who have many years experience both paid and volunteers to understand the roller coaster of emotions they will experience The other reason for writing this book is to try to explain to the general public what emergency responders go through and the many different emotions we experience We are not robots we are just like you We are your neighbors your teachers and your friends Every one of us has dedicated a tremendous amount of time and energy in preparing to be there in your time of need It is our privilege and we love to do it Everything I talk about in the book is real there are no fabricated stories or sensationalizing to make the incidents sound more dramatic They are written truthfully as they happened and the emotions are genuine I hope this book sheds some light on the courageous and extraordinary people that work and volunteer in these professions and the challenges they face

The Unbroken Steve Serbic,2021-04-07 When a series of traumatic calls on the job as a firefighter leaves Steve shaken and unable to recover he reluctantly at first seeks out clinical counselling His one rule I won t talk about my childhood closes the door on several therapists until he meets one who is willing to respect his wishes providing he explores his childhood on his

own When Steve begins to reflect on his past he also begins to write it all down The good and the terrible Those written words are here Growing up in a fractured family rocked by addiction and trauma Steve had to learn how to understand life and death on his own As a self described street rat on Boundary Road in East Vancouver Steve caused trouble when it wasn't already following him around Struggling in school at home and in countless fights he navigated his way through adolescence with the help of his father and pursued his dream of becoming a firefighter While realizing that dream he is forced to confront the demons of his past and the reality of post traumatic stress injury Through clinical counselling he is able to release his past and find the power of self acceptance and vulnerability The Unbroken is the memoir of one firefighter his family trauma and resilience Most importantly it is a story that teaches all of us no matter our situation that life is school and the subject is ourself our life habits thoughts and our reactions to them And that sometimes it is okay to not be okay "On Call" Allen B. Locklier Jr.,2010-09-09 I'm a firm believer that to write about the truth sometimes you have to write outside the box When you follow all the rules in writing and do the same thing that everyone else does sometimes the real truth takes a slight turn toward the not so realistic but more toward the right way to author a book Since my book is about actual calls that I responded to as they occurred and so as to keep them as factual as possible I do use some of the actual language graphic and raw as it was in trying to describe the scene as I remember I do not wish to offend anyone but I feel that to do anything else would be an injustice to my readers I want realism in my accounts of the calls depicted here in as a first responder Won't you come along and see **First Responder** Jennifer Murphy,2021-04-06 One woman's incredible story of life on the front lines as an emergency medical worker in New York City On the streets of New York City EMTs and paramedics do more than respond to emergencies they eat and drink together look out for each other's safety mercilessly make fun of one another date one another and most crucially share terrifying experiences and grave injustices suffered under the city's long broken EMS system Their loyalty to one another is fierce and absolute As Jennifer Murphy shows in the gripping and moving First Responder they are a family A dysfunctional family perhaps but what family isn't Many in the field of pre hospital emergency care have endured medical trauma and familial hardship themselves Some are looking to give back Some are desperate for family Some were inspired by 9/11 Still others want to become doctors nurses firefighters cops and want to cut their teeth on the streets As rescuers they never want people to die or get hurt But if they are going to die or get hurt first responders want to be there Despite the vital role they play New York City EMTs are paid less than trash collectors and far less than any other first responder makes even though the burden of medical emergencies fall on the backs of EMTs and medics Yet for Jennifer and her brothers and sisters it's a calling more than a job First responders are constantly exposed to infectious diseases violence and death The coronavirus pandemic did not change that much the public is just more aware of it After 9/11 EMT training schools experienced a surge in applications from civilians wanting to become first responders inspired by rescuers who responded to the terrorist attacks and rushed into the burning towers when everyone else ran out The same will almost

certainly be true post coronavirus as people are moved by a desire to help in times of crisis in a more direct way Funny and heartwarming inspiring and poignant First Responder follows Jennifer s journey to becoming an EMT and working during and beyond the Covid 19 pandemic She will bring readers inside an intense world filled with crisis rescue grief uncertainty and dark humor First Responder will move readers to a greater understanding and appreciation of those fighting for them wherever they live in a world they hardly know or could imagine
